

10.1 ADOPTION OF COUNCIL POLICY – NAMING OF PUBLIC STREETS, ROADS, ETC. (RH)

The draft Policy placed before Council on 16th April (Minutes p.1212) for consideration was endorsed for Public Consultation on 7th May 2003 (Minute 62:03 p.1219). Two submissions only have been received – one seeking recognition of the former Cairn Hill Rural School (Wallaroo Plain locality) and the other for naming of Cross's Road (Tickera locality).

The draft has since been extended with names from the Wallaroo war memorial. The schedule of name sources for roads, streets, etc should enable a systematic approach being taken with the naming of proposed in land division applications at an early stage. The naming of all rural roads in the district should be completed by early-mid 2004.

Copies of the Policy Statement will be available for public distribution; the Policy should be reviewed at least annually by Council to ensure its continuing currency..

DISTRICT COUNCIL of THE COPPER COAST

51 Taylor St. KADINA 5554 71 George St. MOONTA 5558 5 John Tce. WALLAROO 5556

The NAMING OF STREETS, ROADS & PUBLIC PLACES.

Policy Statement

Environmental Services - Housing & Community : Town Planning

The Local Government Act 1999, section 219, enables a local nomenclature – i.e. a system for naming roads, places etc. Thus, '*...Council may assign a name to a public or private road, or to a public place, or change the name of a public or private road, or of a public place*'. The Act further requires that Council '*... must immediately notify the Registrar-General, the Surveyor-General and the Valuer-General of the assignment of a name, or the change of a name ...*' enabling the names to be recorded on land certificates of title, the public maps etc., and must, on their request '*... provide information about the names of roads and public places in the council's area.*' Due '*public notice must be given of a resolution assigning or changing a name...*' to the wider community by the District Council.

For practical purposes, as well as notifying all local property owners and occupiers, such notice involves a range of government authorities and public utilities including Australia Post, Australian and State Electoral, ETSA, Water and Telstra Corporations, Police and Ambulance services, local Medical Centres, Metro. and Country Fire services, State 'Environment' and 'Planning' Departments, local Surveyor consultants, Real Estate agents, etc.

New residential land divisions creating new streets need naming during the statutory approvals process. Although most streets, roads and places in the Kadina, Moonta, Wallaroo and Paskeville urban areas have been named, most of those in the rural district have not (August 2003). Of these, virtually all were delineated by 19th century government surveys and, in consequence, have been identified ever since for administrative purposes as "Government Road" for want of another name. In some instances, Councils of the day have allocated the family names of Mayors and Town Clerks to streets. However, in the absence of systematic Council naming policy, the continuing creation of public streets in the development of urban subdivisions tends to be overlooked.

In this age of rapid communication and transport, there is a need for the specific identification of all public ways in a systematic manner at the local level. Such need is highlighted by police, medical and fire emergencies. National recognition of the need is contained in guidelines for the systematic addressing of rural properties. A State perspective is provided in a Geographical Names advisory policy seeking to relate the naming of places to their European and Aboriginal heritage.

Accordingly, as a matter of District Council **policy**, all proposals for giving a name to, or altering the name of any street, road or place will be assessed by Council on their merit as to their conformity with the following principles and selection criteria. Formal adoption by Council and implementation may follow.

The policy **objective** is the establishment of a local nomenclature i.e. a system for the naming (or re-naming) of all existing and future streets, roads and other public places in the District Council area.

The **principle** on which this policy for naming streets, roads, places, etc., is based is:

the selected name of every street, road or other public place should reflect the European or Aboriginal history/heritage of the local community of interest or place to be named. For example: Wearn Crescent, Goyder Street, Narangga Terrace, Muddy Lane, Drain Road, Newbery Avenue, Ballarat Row, Abraham Rydberg Drive, Oriental Court, Black Oaks Plain Road, Mashfords Corner, Mays Crossing, Air Marshal Sir Richard Williams Drive, etc.

Selection criteria for the preferred names of streets, roads and other public places throughout the whole district may include:

- the family/surname of former Mayors, Chairmen, Councillors, Town and District Clerks with acknowledged records of meritorious service to local government. For example : Russack Road, Wearn Crescent, Phillips Street, Price Street, Dowling Drive, Crutchett Road...
- the family/surname of persons or families with acknowledged records of meritorious service at a regional, state, national or international levels and of local origins. For example: Air Marshall Sir Richard Williams Avenue (Air Marshall Sir Richard Williams, 'father' of the Royal Australian Air Force) John Verran Terrace, John Olsen Avenue etc...
- the family/surname of persons or families with acknowledged records of meritorious services to their local community in various spheres of endeavour. For example: Haylock Road (local sport), Polgreen Road (life-long community service), McCauley Park (generations of community service)...
- the family/surname of pioneering families with generations of association with a particular locality. For example: Angove Lane (Cross Roads), Marshall Lane (Hamley–Moonta Mines)...
- the family/surname of persons on active service overseas who '... paid the supreme sacrifice' recorded on local war memorials. For example: Chapple Street, Andrews Street, Finlay Court, Brokenshire Street ...
- generally recognized locality and district destinations where such names are recorded from the original 19th century government surveys. For example: Black Oaks Plain, Boors Plain, Thomas Plain, Myponie Point, Wallaroo-Tickera etc...
- the names of 19th century subdivisions – in their immediate locality. For example: Jerusalem, Jericho, Matta, Newton, Helston, Tuckingmill, Menadue, Euko, Thrington, Sunnyside etc...
-

Proposed names of streets, roads and places will:

- ❑ avoid the duplication of names or similar sounding names within each of the separate Kadina, Moonta, Wallaroo and Paskeville communities of interest (but, conversely, may be proposed in each). For example: Taylor Street, George Street etc...
- ❑ avoid the use of fanciful sales names and the given (Christian) name of individual persons. For example: Playtime Parade, Marilyn Street etc.
- ❑ avoid changing existing names allocated pre-World War II (despite the prevalent use of given/Christian names and numbers. For example: First Street, Second Street, Robert Street, etc.
- ❑ avoid name change in response to quasi-aesthetic values, where the existing name is of a distinctive and long established customary usage. For example: despite being now bitumen sealed Muddy Lane will still be named Muddy Lane or, despite the mine drain being filled in and planted to trees, Drain Road will still be named Drain Road ...
- ❑ be deferred in their effect for at least a year where the name change may impact on the needs of business or other enterprises, in terms of their signage, stationery and other needs for identifying their location...
- ❑ if Aboriginal words are used, following on consultation with Narungga Nations, they must be representative of the vocabulary; the meaning of the selected word should be appropriate for the intended use. For example: Narangga Terrace (*Tindale, 1936*).
- ❑ Not allocate a name to public road reserves not open to normal traffic, by virtue of being rented to adjoining landholders for agricultural or other business purposes.

Consultation with the community -

- ❖ Proposals for the naming of streets, roads and places may be referred for advice to community groups and persons possessing a wide knowledge of the history of a locality. For example: acknowledged local historians, Agricultural Bureaux members, National Trust branch members or other persons or groups with recognized special interests.
- ❖ If such is deemed appropriate by Council, proposals for names may be sought from the local and wider communities through local news media, direct personal contact, etc.
- ❖ To avoid confusion, proposals involving roads crossing the District Council boundary, immediately adjoining it or otherwise of potential interest to neighbouring District Councils, will be referred for their comment prior to any naming decision by Council. The Local Government Act s. 219 (2) requires Council to '*... give the adjoining council at least two months notice of the proposed change; and consider any representations made by the adjoining council ...*'
- ❖ To avoid confusion, all street and road names will have terminal points at recognizable intersections/junctions or destination. Where appropriate, Main Roads or right-of-way streets will serve as terminal points for other road names. For example: Doswell Terrace originally included Sophie Tce/Milne St/Rodda Tce - before being named Doswell over its full length.

Implementation

- a public Register of all existing and proposed names of streets, roads and places will be established and maintained to record the origins of each such name; the Register will be available for public inspection without charge.

- A standard Council requirement for all new land division applications will be the naming of all proposed streets, roads and places in the survey plan of division, as chosen from a Register listing provided by the District Council (thereby saving much needless 'paper warfare'). Developers and Surveyors are encouraged to consult with District Council environmental services staff during the design stage of each land division.
- every proposal for the naming of streets, roads and places will be assessed by Council as to conformity with the principle and criteria for selection, with adoption or rejection to follow.
- All statutory and public authorities, property owners/occupiers and others with an interest in the streets, roads or places will be notified of the name, its rationale etc.
- All named streets, roads and places, in both urban and rural areas, will be identified by appropriate signs, in accordance with Australian Standard; such may include the former name in small letters. For example: Coast Road formerly Oxford Street.

Definition of terms: (from the *Macquarie* and *Concise Oxford* Dictionaries)

Street = a public way or road, paved or unpaved, in a town, or city, sometimes including a pavement(s), and having houses, shops, or the like, on one side or both sides.

Road = a way, usually open to the public for the passage of vehicles, persons, animals; a road generally connects localities some distance apart.

Lane = a narrow way or passage between hedges, fences, walls, or houses.

Court = an open space wholly or partly enclosed by a wall, buildings, etc. ... a short street.

Crescent = a curved street ... shaped like the moon in its first quarter.

Avenue = roadway with trees or other objects at regular intervals; a broad street.

Boulevard = broad street, esp. with rows of trees along it.

Place = a short street, a court, etc. ... an area, esp. one regarded as an entity and identifiable by name, used for habitation, as a city, town, or village.

Close = an enclosure about or beside a building, cathedral, etc. ... a narrow entry or alley, or a courtyard to which it leads; a cul-de-sac.

Way = a path or course leading from one part to another ... a road, route, passage, or channel (usu. used in combination (e.g. a roadway))

Drive = a road for driving, esp. a private access road to a private house.

Terrace = raised level space, natural or artificial, esp. for walking or standing ... row of housing along top or face of slope ...

Esplanade = any open level space serving for public walks or drives, esp. one by the sea.

Promenade = an area suitable for leisurely walking, esp. one along the seafront at a resort; esplanade.

Grove = a small wood or plantation of trees – i.e. not a term for identifying/naming a road or street.

Schedule of name sources for roads, streets, etc.

TOWN of MOONTA

MAYORS 1872-1984

Drew, Charles	1872-73, 1879-81	Drew Court, Port Hughes

Reynolds, Perce J.	1960-70	
Hall, Ian	1970-	
Symons, Neville W. 1971-72		Symonds Street, Moonta Bay (formerly Ellen)
Dimond, Graeme L.	1972-79	
Hazel, Ralph	1979-84	

“Moonta’s Heroes of the Great European War 1914-1918”

The names of those men from Moonta district who were either killed in action, died of wounds or disease during The Great War and listed on the column of the Memorial, Blanche Terrace, Moonta, appear as follows:-

The names of the war dead from both World Wars have been directly transcribed from the Memorial column at Moonta. All names have been checked against the Commonwealth War Graves Commission website. It has not been found possible to match the two sources in all instances. Where doubt has arisen as to the correct initials leading to positive identification, the transcribed name carries a ‘?’, pending further research.

Olsen, John W.	1974-77	

TOWN CLERKS 1872-1977

Ey, Julius	1872-77	
Manclarke, Richard	1878-97	
Inglis, John M.	1897-1905	
Ward, Matthew J.	1905-10	Ward Street, Kadina
Harris, Frederick W.	1911-47	Harris Road, New Town

Warhurst, Arthur R.	1947-49
Wilkinson, Basil F.	1949-60
Thompson, Ronald E.C.	1960-64
McCann, Ronald G.	1964-67
Symons, Neville W.	1967-70
Darling, Anthony J.	1970-75
Reed, Reginald W.	1975-76
Cameron, John B.	1976-77

The Corporate Town of Kadina and District Council of Kadina amalgamated in 1977 to create a new District Council of Kadina.

There may be a coincidence in the named streets, roads, etc., within the Kadina urban area as not all are named after the Kadina Town Mayors and Town Clerks or Kadina district Chairmen and District Clerks. Note that in some instances the street names e.g. Wearne Crescent/Mayor Wearn, are similar.

Having regard for the foregoing and submissions from public consultation duly considered, Council may wish to now adopt the following -

RECOMMENDATION

That Council adopts, as both policy and procedure, the Policy Statement 'The NAMING OF STREETS, ROADS & PUBLIC PLACES'.
