

Monthly Projects Update – December 2021

Bay Road

- Underground stormwater works along the main line completed from Coast Road towards the foreshore
- Focus moving forward is the section from Hughes Avenue towards Moonta township.
- Council is working with SA Power Networks in the installation of electrical conduits for future proofing the undergrounding of powerlines. Six crossings between Hughes Avenue and Coast Road completed, contractors installing conduits between Coast Road and the foreshore.
- The contractor, together with Council staff are working with SA Water where trenching impacts SA water mains. Special consideration is required in crossing each water main resulting in temporary shut downs whilst the pipe work is laid and backfilled. Residents affected are notified in advance and SA Water are providing alternative water solutions.
- Council is also working with SA Water in applying underground water connections for irrigating Bay Road median strips.
- Traffic management and project update notices have been provided to residents along Bay Road and all associated side roads via mail, VMS boards, Council social media platforms and YP Country Times to the community
- Due to lost time with collapsing sands, water main shut downs and some inclement weather, the program of works has been adjusted. Kerbing and road construction has been rescheduled until late January.
- Site works are to shut down over the Christmas period returning on the 10 January. The contractor has been instructed to clean the area and open the road over this closed period.

Monthly Projects Update – December 2021

Cemetery Walls - Moonta

- Work has commenced on the Northern wall. Parts of the wall have some structural issues that need addressing, however, most of the wall requires chipping out and repointing.
- As part of the cemetery management plans, there is a number of trees that require removal that are encroaching on the cemetery walls and/or overburdening the area.

North Beach Foreshore Toilet

- The temporary fencing has been removed and the toilet construction completed and it is now open to the public.
- The concrete pathways linking the toilet to the North Beach Kitchen, Caravan Park and the carpark on North Beach is scheduled for late November
- Some fencing remains to the new carpark area due to an existing water meter for the Caravan Park. New fencing is to be installed once the paths are completed to finalise the project.

Wallaroo to Moonta Shared Path

- Initial earthworks along the rail corridor, including vegetation clearing, grading and compaction of sub-grade has progressed from Coota Road to Mines Road.
- Importing, grading and compacting of rubble, used to form the sub-base, set to commence late November/early December.
- This section of the shared path is planned to be asphalt sealed and completed before moving onto the final stages within the town extents of both Moonta and Wallaroo.
- Discussions are required with community groups in December to seek their level of involvement with the project.

Monthly Projects Update – December 2021

Moonta Dog Park

- Air lock entry and exit along with the associated chain mesh fencing has been installed.
- Dog play equipment is being constructed off-site, set to be installed by close of November.
- Landscaping works, including seeding the dog park for lawn set to commence early December.

Ellen Street - Mural

- Talented local artist Julie Cheshire has completed the mural on the Ellen Street carpark wall.
- The mural depicts aspects of our wonderful region and further enriches the carpark's upgraded aesthetics.

Unsealed Roads - Patrol Grading
