INSURANCE

The applicant must supply Council with a copy of the amusement structure supplier's Certificate of Currency showing public Liability Insurance of at least ten (10) million dollars (\$10,000,000).

AMUSEMENT DEVICE REGULATION

The amusement device must conform to the Australian Standard AS 3533-1997. Please supply a copy of the current registration for the proposed amusement structure if required under the amusement device Regulation (Platform height over 3m)

CONDITIONS

- The amusement structure must be designed, constructed, maintained and operated in accordance with Australian Standards 3533.1-3522.4, (as applicable) together with the manufacturer's instructions and any other relevant regulation, code of practice or guideline.
- Each amusement structure, whist operating must be under the supervision of a competent adult.
- It will be the responsibility of the amusement owner to provide operation instructions and assure the hirer will be competent in fulfilling their obligations.
- Hirer provides agreement to operate the amusement device in safe manner and at all times ensures safety of patrons.
- The structure must not be erected or operated in wind velocities exceeding 45km/hour or such lesser amounts as prescribed by manufacturer's instructions or any other relevant regulation, code of practice or guideline. If the wind velocity approaches this figure the structure must be cleared and made safe (and, if necessary, deflated) immediately.
- The structure must be held down securely at all times whilst in operation. If any part of the holding down system becomes detached, it is the supplying company's responsibility to clear all persons from the structure (and, if necessary, deflate it) until such a time as it can be securely restrained.
- No pegging to the ground. Owners of the Structure/ jumping castle must demonstrate that they have proper anchorage (weights) to secure their structure or any marquee/tents.
- Hirer is required to provide:
 - A site map detailing where the structure will be placed including the size
 - A generator for the device (if required)
- Inflatable structures must have a minimum setback of 5 metres from all playgrounds, children's play equipment, barbecues, overhanging trees and building, footpaths and roads.
