Mayor's Message

Growing Community—Growing Investment

Inside this issue:

<i>Your Elected Members</i>	2
<i>Swimming Pool Safety</i>	3
<i>Assistance with paying your rates</i>	5
<i>Australian Citizenship</i>	9

I trust that everyone has had an enjoyable Christmas and New Year period, celebrating what is great about the Copper Coast and enjoying time with family and friends.

As 2011 begins we reflect on the work undertaken in 2010 and the changes that have occurred. Significant projects were undertaken in each of the towns including the yet to be completed works on the main streets in Moonta, the Wallaroo Community Sports Club and Wallaroo Foreshore.

Council has presented 48 community groups with just over \$93,000 in grant funds enabling them to continue to invest in the local community working with all age groups. Further detail of the grants is included within this edition.

As 2010 drew to a close the application for 2 RV Friendly sites within the Copper Coast region were approved. Paskeville received 'RV Friendly Destination' status with the parking area located near the oval. This opportunity to invest in the future of the small Paskeville Community has been supported by the local Progress Association. Wallaroo received 'RV Friendly Town' status, highlighting the additional facilities and services available in the town. The RV parking area will remain on Cornish Terrace.

2010 also saw the return of TAV Productions to film on the Copper Coast in November, reminding us of the richness and diversity of our local community. The film was aired on Channel 9 on the 8th January showcasing the highlights of what is to come in the 2011 Kernewek Lowendar festivities. This investment in promoting our local heritage highlights the lives of real people and the importance that we place on their contribution.

As part of the lead up to the filming Council created several white crosses that were placed on the unmarked graves of children in the Moonta cemetery. These white crosses will be the first of many. It is planned more crosses will be placed on unmarked graves in Council's cemeteries. There will be opportunities in 2011 for groups and individuals to be part of this project.

The Copper Coast area had the fastest average annual growth rate of population outside of the Adelaide city from 2004-05 to 2008-09, reaching a population of 12,901 in 2008-09, according to the latest National Regional Profiles, released by the Australian Bureau of Statistics.

The Copper Coast also had the third largest increase in the number of persons

receiving the Baby Bonus in this period, and one of the largest increases in the number of persons receiving Family Tax Benefit, up 11.4% to 1,149 in 2008-09. As the Council area continues to grow there will be an increased pressure on Council to invest more into infrastructure and facilities for the growing needs of the community.

Our elections in 2010 saw a change in the makeup of the elected body, with the inclusion of 2 women as elected members, a change from an all male elected body in the previous period. The new term has begun with elected members undertaking training to assist them with the decision making and planning for the future needs of the community. The knowledge of the continuing members added to the new ideas of our 5 new members will inject positive vigor into the Council.

2011 is set to be an exciting year for the local community with major events, Kernewek Lowendar and the Paskeville Field Days set to showcase the community to visitors from intrastate, interstate and internationally. For those of us who call the Copper Coast our home it is again an opportunity to highlight that we are indeed 'Proud of our Past and Confident of our Future'.

Newly Elected Council

20th	Infrastructure and Environment Advisory Committee	7.00 pm

Please note that all the above meetings are to be held at the Kadina Town Hall and the public are welcome to attend.

Is Your Swimming Pool Kid Safe?

What you need to know about swimming pool fencing

As a swimming pool owner, YOU ARE RESPONSIBLE for safety. Drowning is the biggest cause of accidental death for young children and most occur in private backyard swimming pools. You can reduce this risk by making sure that your pool is adequately fenced and young children are supervised at all times.

Fencing

Swimming pools built from 1 July 1993 must comply with the Development Act 1993 and the Building Code of Australia, which restricts access to the swimming pool from the house, garage, street, and adjoining properties.

All pools must have suitable safety barriers to restrict access by young children to the immediate pool surrounds, constructed in accordance with Australian Standard AS 1926.1.

Fencing must be constructed such that:

- the outside of the fence is an effective barrier to young children,
- it is permanent,
- it does not provide access for young children to crawl under or to climb over by using foot and hand holds,
- it is not less than 1.2m high, and

- boundary fences; if used as part of the child-safety barrier, must be at least 1.8 metres high on the pool side, with a 900mm non-climbable zone located at the top on the pool side of the fencing.

Gates to the pool area must:

- only swing outward from the pool area,
- be self closing from any position, and
- be fitted with a latching device that is out of reach of small children. (1.5m above ground level)

Security measures on awning and sliding windows complying with AS 1926.1

Where the opening section of any window is less than 1.2m above the floor and provides direct access from the house to the pool area, it must have one of the following:

- bars or mesh screen, or
- a mechanism limiting the size of the window opening, or
- in some cases, a securely fixed fly screen.

Filtration

In-ground or above-ground swimming pools and spas must have a water recirculation and filtration system that complies with AS 1926.3 to reduce the risk of injury to a young child due to entrapment by suction.

Maintenance

Swimming pool owners must ensure that all required swimming pool safety features are maintained in working order at all times.

Aboveground and Inflatable pools

If the pool has a depth exceeding 300mm and a filtration system, you will need to contact Council to obtain approval for the pool, ensuring safety features are in place. It is an important safety requirement that all pools fitted with a filtration system must have two suction points that are at least 800mm apart.

Remember

Children can move quickly and do not recognize the dangers of a pool. Close child supervision will help to reduce the number of drownings occurring in private swimming pools.

Please contact Council's Building/Planning Department or come into a Council Office for a swimming pool brochure to obtain further information.

Meet your local member (Cr Su Bell)

As a proud mother of 3 beautiful girls and 6 grandchildren Su Bell has joined the District Council of the Copper Coast to make a difference in the community that she and her family live. Su looks forward to the opportunities her election gives.

Su has completed Certificate III and IV specializing in Disability Services and received her Diploma as Funeral Celebrant, Registered Marriage Celebrant and Diploma in Professional Counseling. The skills, experience and qualifications of these social services fields has well placed Su to work with and understand the community's needs.

As an elected representative Su would like to be able to make a difference by being part of the solution rather than just discussing the problems. Her 4 years in Council will

enable her to gain knowledge of the Council processes, and play a key role in the implementation of decisions that will improve the community into the future. Su said 'Open and honest communication between elected members, rate payers and the general community will ensure decisions and plans made into the future will be in the best interest of the community.'

In her role she will aim to reflect the community's needs and ensure the Copper Coast Council area is a better place to live; to bring up children; to work and to retire. Su has a passionate interest in the development of community activities for the disadvantaged and youth in our Council area.

Su has been elected to the Corporate and Community Advisory Committee.

Her other representation will include:

- Farm Shed Museum and Tourism Centre
- Moonta Community Library Management Committee, and
- The Heritage Working Group
- YP Transport and Services Board

Su has said the next four years will be both exciting and challenging and will give her the opportunity 'to make the world a better place' from within the local community, for the local community.

Cr. Su Bell

Meet your local member (Cr John Gross)

Councillor John Gross was first elected to the District Council of the Copper Coast in March of 2009 as the result of a bi-election during last term. John is delighted to be given the opportunity to again represent the Copper Coast Community in local government.

Being a resident of the area over the last 15 years John is a business owner and understands the challenges that affect business in a small rural community, particularly one located in close proximity to a major centre.

John and his wife are passionate about their 8 grandchildren, the Copper Coast and the delivery of Primary Health Care. Playing his part in health care in the region enables him to be a part of a healthy future for the young people of the Copper Coast. John has been a

member of the Yorke Peninsula Division of General Practice for 3 years.

He has also been a proud member of the Wallaroo Lions Club for 6 years and as a resident of Wallaroo contributes to his local community through the Wallaroo Development Association.

John's community activities and interests extend to golf, bowls and Sea Rescue. Committee membership is a part of each members role and John has been elected as Chair to the Infrastructure and Environment Advisory Committee.

His other representation will include:

- Pt. Hughes Boat Harbour Working Party
- Wallaroo Community Sports Club

- Community Emergency Risk Management Plan Steering Committee
- Wallaroo Town Centre Task Group

In his role he would like to see the completion of the Wallaroo Main Street and the Port Hughes Boat Ramp projects. He believes that improving Council's approach to infrastructure challenges in particular roads, footpaths and parks and gardens is achievable in the next four years.

Cr. John Gross

How Can I Pay My Rates?

PAYING YOUR RATES

It is the responsibility of the ratepayer to ensure payment is received by the Council by the due date shown on the front of the rate notice.

No responsibility is accepted for payments by post or electronically that do not reach Council by the due date.

If paying through an external agency your payment may be delayed. Please take this into consideration when using this payment method as fines are incurred on rates not received by the due date.

Amounts that remain unpaid may be recovered in a court through legal action.

METHODS OF PAYMENT

POST BILLPAY

Take your rate notice intact to any Australia Post Office or Post Office Agency anywhere in Australia. The minimum amount payable at Australia Post is \$10.00.

TELEPHONE

Telephone payments may be made through the Post Billpay Service. Phone 131816, and follow the recorded directions, quoting Billpay code 2845 and the customer reference number shown next to the Billpay symbol on the front of your rate notice.

PAY ONLINE

Visit postbillpay.com.au and follow the links to pay with MasterCard or Visa.

BPAY

Through your financial institution.

BPAY is a national electronic bill payment service provided by most financial institutions.

Contact your bank, credit union or building society to register for this payment service if you are not already registered.

You require the Council's Biller Code (45773) and the reference number on the front of your rate notice (payment slip).

This method can be used to schedule your rate instalment payments to suit your needs.

Paying by Telephone

Please call your participating bank or financial institution to make this payment directly from your nominated account or credit/debit card. Quote biller code 45773 and the reference number on the front of your rate notice (payment slip).

PAYING IN PERSON

Present your notice intact with your payment to any office of the District Council of the Copper Coast. Office hours are 9.00am-5.00pm Monday to Friday excluding public holidays, at Kadina and Moonta. The Wallaroo office is open from 9.00am-5pm Tuesday to Friday, excluding public holidays.

EFTPOS

EFTPOS facilities are available at all District Council Offices for **personal payers only**.

EFTPOS payments are not accepted by Council staff over the phone. Please refer to the telephone method of payment using the Post Billpay Service.

MAILING YOUR PAYMENT

Make cheques payable to the District Council of the Copper Coast. Please detach the remittance slip/s and return together with your cheque to the District Council of the Copper Coast, PO Box 396, Kadina, SA 5554.

HOW TO SAVE MONEY PAYING YOUR COUNCIL RATES

MONEY ORDERS

Council receives a significant amount of money orders for rate payments. A money order up to the value of \$1000 costs \$5.95 and for amounts over \$1000 the cost is \$6.95.

There is no need to purchase a money order. You can pay your rates at any

Australia Post Office or Post Office Agency. All you need is your intact rate notice.

CHEQUES

Cheques are an expensive way to pay accounts. Please consider the payment options listed above to reduce your usage of cheques. Most bank accounts offer lots of easy options for paying bills electronically.

PAYING IN ADVANCE

You do not need to wait until you receive a rate notice to make a payment. Using any of the above-mentioned payment methods you can make regular payments off your rates to suit your budgeting circumstances.

HAVING DIFFICULTY PAYING YOUR RATES?

If you are experiencing difficulty in paying your rates by the due dates Council is happy to negotiate a payment arrangement with you. Please contact the Rates Department of Council on (08) 8828 1200 (option 4) to discuss payment options. All enquiries are treated confidentially.

Do you receive Centrelink benefits?

Centrelink provide a **FREE** direct-debit facility for its customers called CentrePay to assist people with the payment of various accounts, including your council rates. This service allows you to pay your council rates by having regular amounts deducted from your Centrelink payment, which is then forwarded to council.

Centrepay deduction forms are available from the Rates Department.

CHANGE OF ADDRESS

It is very important to notify Council immediately of any change of address. Change of address must be completed in writing (forms are available at each Council Office) or can be downloaded from Council's website and emailed to info@coppercoast.sa.gov.au

Community Grants

Council received 48 applications for Community Grants to a value of \$157,200 and allocated grants totaling \$93,282. Successful applicants were invited to attend a morning tea held in Kadina Town Hall on December 15 2010 to celebrate their success.

Right: Members of local groups that attended the presentation

Applicant	Brief Description	Allocation
1st Wallaroo Scout Group	Upgrade facilities and purchase equipment	3,000
Copper Coast Lions Convention	Lions Convention	3,000
Kadina Netball Club	Upgrade electrical services, plumbing and cupboard storage	5,000
Kadina Basketball Club	Install permanent cupboard for basketball club storage	781

Wallaroo Bowling Club Inc	Purchase bowls for use by the community and school children	2,000
Wallaroo Golf Club	Purchase of machinery (grounds master)	4,750
Kadina Returned Service League	Flight simulator and Trophies	1,000
Meals on Wheels	Upgrade and purchase new appliances for the kitchen	633
Total		93,282

Wallaroo Foreshore Progress

The first stage of the Wallaroo Foreshore project has progressed successfully with the majority of major civil works complete. These works have included;

- Six new shade structures constructed on Office Beach,
- A new car park and underground storm water drainage system, situated behind the Sea Rescue Building. The underground drainage system included the installation of a gross pollutant trap which will prevent pollutants being discharged directly into the ocean. The car park has been kerbed, line marked and sealed with asphalt. The soft landscaping around the car park will be done in conjunction with the foreshore landscape works,

- The remediation of the old slipway adjacent to the Sea Rescue Building car park,
- The construction of a new breakwater, being a continuation and upgrade of the existing breakwater. The batter rock was sourced from the Wallaroo granite quarry.
- Two look out nodes. The look out nodes are built from structural steel piles and a timber decking with feature marine grade stainless steel pipe rails and wire.

Tenders have opened for the upgrade of the Wallaroo Kiosk.

Council has applied for second round of funding from the State Government Places for People scheme.

If successful this funding will secure the development of the next stage of the project.

Tree Replacement Program

Council engaged a qualified arborist to assess the health of trees in a number of parks and streets.

One recommendation from the arborist was the removal of some trees in Victoria Square in Kadina and Queens Square at Moonta.

Early in the New Year, Council will begin the removal of selected trees and their replacement will occur in Autumn. Residents are advised that the trees to be removed are either in poor health or are an inappropriate species.

Council works within the guidelines of the Street Tree Policy and Street Tree Management Program. These documents have been developed to manage trees for the community and environmental benefit and for protection of the local biodiversity. Council will ensure that safety issues associated with the management of trees is undertaken to minimize risk to the public.

The aim is to provide a consistent approach to street tree management and planning throughout the local government area. Council will continually review and monitor their approach to the long term tree management program.

Each year Council plants 100's of trees in and around the towns of the region ensuring appropriate species, replanting programs, to encourage biodiversity and to attract and support native wildlife.

Information on Council's Tree Replacement Program is available on Council's web site.

Elder Friendly Community Project

The District Council of the Copper Coast is committed to ensuring the voice of the older community members is heard and respected within the community.

Through the Elder Friendly Community Project the relationship between this sector and the Council has continued to grow, fostering many great outcomes within the community.

Recently Council hosted a community information session. Representatives from SA Ambulance presented on hot weather and heat stress and SA Police personnel provided information on safety within and around the home.

Information was available to attendees on a wide variety of resources for community members promoting local services and supporters as well as

positive and active aging.

Community Liaison Officer Stephanie Daniel, also provided a brief overview of the Elder Friendly Project and the outcomes to date.

The Council is committed to continue holding information sessions throughout 2011, following the success of this first event.

Community members have expressed an interest in increasing knowledge and understanding in regards to services available to assist within and around the home, medication management, transport services, driver education and money management. The DCCC will endeavour to address many of these areas through linking with local services to provide community information sessions.

The information sessions are an Elder Friendly initiative and will be hosted on a rotation basis between Wallaroo, Moonta and Kadina, with all residents welcome at each event.

For further information please contact Stephanie Daniel on 88281200

Information Session conducted in the Wallaroo Town Hall

Copper Coast Youth Council (CCYC)

The Office for Youth definition of youth is: 'those 12-25 years of age'.

The Council aims to provide an opportunity for the voices of these young people to be heard through the CCYC.

CCYC offers a range of benefits to both young people in the Copper Coast and Council members.

This is a vehicle that enables Council to consult with, and benefit from the expertise of young people on matters relating to policy development, service provision, and issues relevant to young people.

This enables young people to become involved in the planning, development and delivery of relevant youth services

and projects for the Copper Coast region.

The objectives of CCYC are:

- to consult with young people to assist more effective Council decision-making and achieve improved outcomes across Council;
- to develop young people's skills in participation in fulfilling the democratic right of young people to participate in decisions that affect their lives; and
- to enhance young people's roles as active community members in achieving outcomes towards a more inclusive community.

Any young person, who resides in the District Council of the Copper Coast region, is eligible to participate on the CCYC. The CCYC generally conducts meetings on a monthly basis.

The CCYC have participated in the consultation of the skate parks, expo's (both locally and in other areas), organized bus trips to BobFest in Burra, letters to organisations to show interest in opening a business in the Copper Coast (e.g. McDonalds), Australia Day Skate and BMX competitions.

If you or someone you know has an interest in the delivery of youth appropriate activities within the Copper Coast and would like to participate in the CCYC, please contact Jodi Russack on 8828 1200.

Australian Citizenship

'I am Australian'

To be able to say this means that you call Australia home. Australian citizenship is a privilege. By becoming an Australian citizen, you are joining a unique national community.

To apply to become an Australian citizen you must lodge your application with The Department Of Immigration and Citizenship (DIAC) to receive an appointment to sit the citizenship test.

The process may vary depending on the application requirements but in general the steps are:

- check that you are eligible to apply for your selected application type,
- gather your original documents that prove your identity, show you are of good character, and support your eligibility,

- complete and lodge your application with the necessary documents and appropriate fee,
- sit the citizenship test, and
- wait to find out if you have been approved and, if you applied for citizenship by conferral attend a citizenship ceremony to formalize (legalise) the decision.

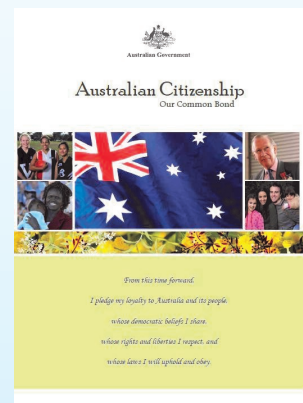

A decision on your application for citizenship will only be made after you have lodged a completed application form together with the required documents and fee, and passed the citizenship test.

Everything you need to know to help you pass the citizenship test is contained in the free test resource book Australian Citizenship: Our Common Bond.

To order contact DIAC on 131 880 or print out your copy by visiting www.immi.gov.au.

Internet access is available at the Kadina Community Library, 1a Doswell Terrace, Kadina,

Phone (08) 88210444.

Your Local Ceremony

For most people, the final step in becoming an Australian citizen is making the pledge of commitment. Once your application has been approved arrangements will be made for you to attend a citizenship ceremony where you will make the Pledge.

Attending a citizenship ceremony is important as you will not become an Australian citizen until you have attended your citizenship ceremony and taken the pledge. Making the Pledge is the final legal requirement to become an Australian citizen.

The ceremonies are arranged by Council within six months of your application being approved. You will receive a letter of invitation from Council to attend a ceremony. This is an occasion for

celebration to share with friends, family and members of your community, including local and federal members.

You will be asked to bring your invitation and some identification. His worship the Mayor will conduct the ceremony, which includes a welcome message from the Minister for Immigration and Citizenship, The Honourable Chris Bowen MP. During the ceremony you will be asked to repeat the pledge of commitment out loud. The Pledge you say will be the one you chose on your application form.

When you have made the pledge you will have become an Australian Citizen and will be presented with your Citizenship Certificate.

The National Anthem will be played at the conclusion of the ceremony followed with light refreshments.

The final piece of housekeeping is to complete an enrolment form to get your name on the Australian Electoral Roll allowing you to vote in future elections. Voting in Australia is compulsory.

Please note that your citizenship certificate is an important legal document, which you should look after. You will need it when you apply to get an Australian passport.

Each year on Australia Day the Mayor performs citizenship ceremonies as part of the Australia Day activities. Having your ceremony on this day is particularly significant and can be organized if requested.

Moonta and the Masters

Ian Ravenscroft, with 'Spin Doctor' Terry Jenner and Mark Ravenscroft

The District Council of the Copper Coast hosted a match in the Australian Cricketer's Association Masters Tour from the 11th to the 13th December 2010.

The Masters Program has been developed by the Australian Cricketer's Association, (ACA), the official representative body of past and current players, with a focus on community

engagement and the promotion of cricket.

The highlight of the tour was a Twenty/20 Match played in perfect conditions at Moonta Oval. The ACA Masters Team collectively boasted the experience of 126 Test Matches and 124 One Day Internationals. In 1,243 first class matches, their combined statistics reveal a tally of 65,641 runs and 2,594 wickets.

The ACA team ended a 3 match losing streak by narrowly beating the Yorke Peninsula Cricket Association, (YPCA), Invitational X1.

The match attracted people from around South Australia and from interstate. The match was a significant showcase event for the region.

The legendary 'Spin Doctor' Terry 'TJ' Jenner who once played cricket for Moonta attended the match.

The day also featured a Twenty/20 Celebrities Match that saw a range of past and present AFL footballers and locals slog it out in an entertaining match.

Junior and Milo in2Cricket players provided the curtain raiser and half time entertainment.

While in the Copper Coast area the ACA Players attended a Sportsman's Night at the Copper Coast Sports and Leisure Centre raising over \$1,000 for the Mayor's Community Fund.

The ACA players visited hospitals and conducted Junior Cricket Clinics before leaving the area.

Remembering the Bandsmen

April 14th 2012 is the 100th anniversary of the sinking of the Titanic on her maiden voyage from Southampton to New York.

The District Council of the Copper Coast is planning to hold a dinner to commemorate the 99 years since the sinking on April 16th 2011, at the Wallaroo Town Hall. The dinner will be a fundraising activity of the Mayor's Community Fund, and in particular will

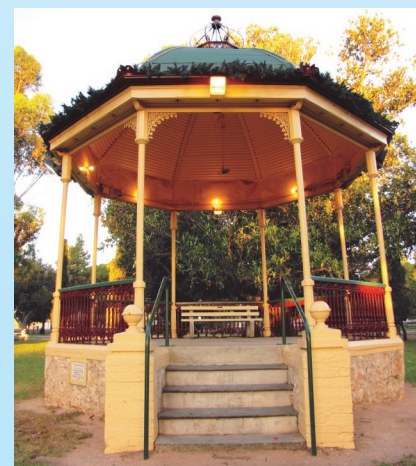

raise funds to purchase a replacement plaque in memory of the bandsmen that went down with the ship.

Previously a plaque was attached to the Kadina Band Stand/Rotunda and has over the years disappeared. Several members of the community are keen to see the replacement of the plaque in 2012 to celebrate the 100 year anniversary in April of that year. The Council is supporting this proposal with the purchase of the plaque through the Mayor's Community Fund.

The Titanic Function will be a re-enactment of the last dinner served on the Titanic with appropriate decorations, entertainment and the opportunity for the guests to dress up in period costume.

Mark your calendar for this unique dinner.

Further information will be made available in early February. If you are interested in attending or being part of the event you can leave your details at the Council office.

Rotunda—Victoria Square, Kadina

Wallaroo Community Sports Centre

A new home for the Wallaroo Golf, Croquet and Bowls Clubs is well underway with the building of an impressive facility on the Wallaroo Golf Course.

The concrete slab has been completed and precast concrete feature wall panels have been erected. Structural steel columns and purlins have been erected and cladding of the walls of the greens area has commenced. The roof sheeting

has also commenced. Stormwater pipes and pits have been installed.

Air conditioning ducting and electrical cabling are being installed inside the complex and roller doors are being installed at the rear.

The structural steel erection for the clubhouse has been completed and the installation of feature panelling has commenced. This is the architectural component that covers the structural steelwork and gives the building its individual character. Installation of the septic tank and associated pipe work has also been completed.

A 130kl rainwater tank has been ordered and this will be plumbed into the building to provide water for the flushing of toilets. Security cabling is also being installed and a public address system has been allowed for in the

design of the complex. The cool room has also been installed and the bar has been ordered.

The Community Sports Club will be available to the community toward the end of this financial year and will seat approx 200 people. The bowling green and croquet court will be competition standard and attract many players from all over the state and interstate.

Kernewek Lowender, May 2011

The Kernewek Lowender is the largest Cornish Festival in the world. The copper mines, once employed hundreds of Cornish immigrants which were the existing essentials work men to the region, but after the mines closed in 1923, agriculture became the main industry.

The original Cornish Festival committee selected the May long weekend for the first festival in 1973.

The name "Kernewek Lowender" was chosen- it means 'Cornish happiness in the Cornish language'.

Cornish Culture and the Arts

Discover the Cornish Culture and the Heritage of the Copper Coast. Watch the Traditional Maypole and Furry Dance. Immerse yourself in the value of the Arts and Literacy.

- Arts Prize Soiree
