

MAYOR'S MESSAGE...

Slam Dunk for the Copper Coast

We have again farewelled the old year and welcomed in the new. And as usual it is done so in the Copper Coast with considerable style. There is no doubt that the mixture of waterfront and fireworks is symbolic of New Year Celebrations. Many images of New Year from around the world depicts either fireworks over harbours or significant buildings. In appreciating that I am somewhat biased, consider that a Copper Coast New Year rivals that of fireworks over Sydney Harbour or the Thames!

The Copper Coast is emerging as South Australia's playground; with many visitors choosing to spend their holidays in our area, or for some an easy day trip from the city to fish, swim, enjoy "Splash Town" or visit family who are lucky enough to live here. It was interesting to read in the Advertiser Newspaper on Saturday December 19th, that the Copper Coast was listed among the States premium holiday destinations. The paper quoted, "SA's holiday hot spots. Popular beach & riverside holiday hot spots are booked out a year in advance, leaving families desperately hoping for cancellations". (They weren't writing about the weather forecast!) This interest in our community will continue to drive development and that will in turn drive our economy.

The past year 2015 certainly provided Council with a number of challenges, but from those challenges we were able to explore and formulate avenues to accommodate the interests and needs of our community. It has been encouraging to see how the

"With hard work and perseverance goals are within our reach".

community became actively engaged in working toward outcomes for the ongoing developments in the Copper Coast.

The redevelopment of the Copper Coast Sports & Leisure Centre has been a significant example. I was a student at Kadina Memorial High School when the "Recreation Centre" was originally built. And I luckily still have the ability to remember that many in the community at the time considered the concept of building such a facility to be somewhat futuristic and an unnecessary financial impost for the community. But at the time like today, there were those of the community who could foresee its potential benefit and were not

swayed in their determination.

I recall that there were many community fund raising campaigns, one that the school became involved with was the Sports Quest where a Queen was crowned for her fundraising efforts. The Service Clubs all contributed as did members of the sporting community. It was then a state of the art facility.

But over the intervening years, standards have changed, our expectations have risen and usage has altered. When it was first built, squash was a very popular sport for the fitness fanatic, but now the equipment of a gymnasium is considered to be more popular exercise. Yet basketball has been a constant with increasing numbers of

participation. It is also interesting to note how many local players have gone further with their obvious ability to play nationally and some even internationally.

We often hear of "being in the right place at the right time". Similarly it is interesting how at times there is the blending of thoughts that can formulate aspirations beyond what was initially envisaged. The expansion and growth of Kadina Memorial School and the need to upgrade the Copper Coast Sports & Leisure Centre seemed to be the right concept at the right time, coupled with the Commonwealth Government's National Stronger Regions Fund.

■ *Continued on page 2*

MAYOR'S MESSAGE... Slam Dunk for the Copper Coast

■ From Page 1

I have to admit that I considered the possibility of securing significant funds from such a grant may have been out of reach. (Basketball has usually been out of reach for me!?) But our Executive team with enormous diligence pursued the possibility. Eyes were not taken off the ball and after gaining some significant financial support from the South Australian Government in recognition of the facility benefit to education and further community financial commitments; a submission in excess of two thousand (2000) pages was submitted. Without a doubt the adrenalin pumped when news of our success in gaining \$4,803,424.00 (inclusive of GST) was conveyed to me. I now knew what it felt like to Slam Dunk a basket!?

Similarly groups within our community as they consider their respective redevelopments or upgrades to facilities, consider the expenses at first glance to be beyond their reach, however over the last few years our Community Grants programme has been the impetus for groups to match grant funds and in turn contribute to the collective community wealth of the Copper Coast.

This year Council allocated \$84027.00 to forty three (43) separate groups within our community as part of the 2015 Community Grants Programme. Projects ranging from a \$500.00 grant to Gulf FM for IT purchases, \$500 to the Wallaroo Probus Club to assist with the purchase of a digital projector, camera and USB drives or \$650 to Immanuel Lutheran Church Kadina to upgrade their kitchen facilities to larger grants like the \$2000 to Kadina Apex Club to purchase a Christmas float from the Adelaide Christmas Pageant or Kadina Child Care Centres \$3500 for the creation of an outdoor learning space "Touch", "Taste" and Teach". The Rotary Club of Northern Yorke Peninsula received \$5000 to put with their own funds to establish an ablution and shower facility for the homeless at the Salvation Army premises in Kadina.

There is no doubt as we continue to build upon our community wealth, the Copper

Mayor Paul Thomas presents Cameron Edmiston with 2015 Citizenship Award.

Coast will continue to attract visitors and those who are keen to call this place home because it is a Lifestyle Location of Choice.

As the end of year approached, I again had the opportunity of attending many of our school graduations and award ceremonies. I know that I have highlighted before how pleasing it is to see and learn of the wonderful accolades for our students. Many of these young people have gained great results and have contributed much to their respective schools and our community. As a community we need to continue to respect and share the opinions and achievements of our youth – in the future many of them, if we can retain them or attract them back after studies, will be our leaders. But we need employment opportunities.

The current level of unemployment in South Australia has demanded a response from all levels of Government. Those of us in Local Government, committed to helping our communities thrive need to play our part. In

recognition of this, the Lord Mayor of Adelaide invited all South Australian Mayors to join with him for a Mayor's Summit on Jobs Growth. The purpose of the forum was to acknowledge the impact on the community of the jobs situation and to develop collaborative Local Government responses. It is imperative that we all work collaboratively with each other and with other levels of Government to address this grave situation with a 'Team South Australia' approach.

The works programme that Council has adopted and the major developments being undertaken will meet our commitment to this approach. The developments that Council have in planning, the redevelopment of the Copper Coast Sports and Leisure Centre as an example, will do our part in ensuring that our economy is stimulated and that the youth of our community are not forced off the court.

We are ensuring that every shot is a goal!

*Paul Thomas
Mayor*

Your Virtual Library ... Open 24/7

Copper Coast Libraries continue to have high visitation numbers – over 150000 community visitors in the 2014/15 financial year, but you don't have to physically visit the library to enjoy access to digital content.

Libraries still provide collections for everyone to borrow including books, magazines, DVDs, CDs, computer games, toys, puzzles and games. However the introduction of digital collections that can be downloaded free to any smart device means that anyone with a library card has access anytime anywhere.

eBooks and eAudio books are available free of charge by searching the Library Catalogue and downloading selected titles. You then 'borrow' a title for a specified period of time and it is automatically 'returned' from your device on the due date. A wide range of titles are available with the collection continually increasing to meet customer demand.

Simply access the library catalogue - links are available

from the Council website - www.coppercoast.sa.gov.au – Your Community, libraries, online catalogue - or visit the library for assistance from the friendly staff.

eMagazines are also available free of charge through the Zinio database also found on the Online Library Catalogue. With a limited number of titles originally available the subscription has gone statewide with over 400 magazine titles - current and back issues - available to download to any smart device - iPad, tablet, PC or smart phone.

Select anything from the latest Australian Womens Weekly to National Geographic.

Access is dependent on your One Card library card. You will need a library card and PIN number to access these free resources so please contact any Copper Coast Library if you are unsure of how to access these resources.

A recent addition to our online service is lynda.com - a digital training program that has tutorials on all types of digital access/programs. Learn how to

do simple tasks on your computer, digital photography or using social media. All you need is a library card to access 562 online courses and 21823 video tutorials on a wide range of subjects - there really is something for everyone!

So....all you need is a library card. The One Card network means that once you have a library card from any library in

South Australia you can use that card to not only borrow and return to all 140 libraries in the state, but can access everything online free of charge as well.

Please contact or visit any Copper Coast Library for further information or assistance in accessing services.

2016 Council Calendar

January

- 20th Council Development Assessment Panel meeting, 5.30 pm, Town Hall Function Room, Kadina
- 20th Council meeting – 7.00 pm, Council Chambers, Town Hall, Kadina
- 26th Australia Day Celebrations, Kadina – further details will be advertised closer to the event

February

- 10th - Council Development Assessment Panel (CDAP) meeting - 5.30 p.m., Town Hall Function Room, Kadina
- 10th - Council meeting - 7 p.m., Council Chambers, Town Hall, Kadina.
- 15th - Audit Committee meeting - Copper Hill Meeting Room, Town Hall, Kadina

March

- 2nd - Council meeting - 7 p.m., Council Chambers, Town Hall, Kadina.
- 9th - Council Development Assessment Panel (CDAP) meeting - 5.30 p.m., Town Hall Function Room, Kadina

April

- 6th - Council meeting - 7 p.m., Council Chambers, Town Hall, Kadina.
- 11th - Audit Committee meeting - Copper Hill Meeting Room, Town Hall, Kadina
- 13th - Council Development Assessment Panel (CDAP) meeting - 5.30 p.m., Town Hall Function Room, Kadina

**Please note that changes to the above meetings will be published on Council's website along with other meeting dates.
All public are welcome to attend these meetings.**

Special meetings of Council may be called at other times throughout the year and will be added to the website as required.

OWEN TERRACE

Works within Owen Terrace for verandahs and footpaths have been continuous throughout recent months and are nearing completion, this includes the Cornucopia verandah and relevant footpaths throughout.

GRAFFITI AWARENESS PROGRAM

KESAB in conjunction with Council recently offered a Graffiti Awareness Education program called "RESPECT" to schools within the Copper Coast area.

The RESPECT Program covered strategies to deal with common youth development which can translate into community issues, with a focus on graffiti, while covering other anti-social behaviour such as vandalism, theft, underage binge drinking and bullying.

RAIL CORRIDOR - KADINA/ WALLAROO

The rail removal is progressing well and a big thanks to the Rotary Club of Northern Yorke Peninsula who have volunteered many hours clearing the track and preparing the area for the new cycleway. Works will continue on this project during 2016.

SHREDDING AT THE RESOURCE RECOVERY CENTRE

The Resource Recovery Centre opened to the public on July 1st, 2014. As part of improving recycling processes Council has engaged a contractor to mulch major stockpiles of green waste, timber waste, mattresses and tyres. The Resource Recovery Centre has been operating for over 12 months and improved processes are being developed.

MOONTA CWMS

Many roads have been sealed in Moonta Bay due to those sections of the CWMS being completed and becoming live.

In total the amount of works include approximately 20,000m² of spray seal and 1,500m² of asphalt seal.

FOOTPATH WORKS

Footpath works continue in the Moonta Bay Development Estates after recent works completed in the Wallaroo area.

COUNCIL SUPPORTING OUR YOUTH

In 2016 the Council is continuing its current program of offering four traineeships to our community. Two 12 month administration traineeships within the Corporate Services team aim to provide a Cert III in Local Government. While these skills are initially focussed around Local Government Administration we believe they will be transferrable to many

roles within businesses in our community, offering the successful candidates a strong start to their careers.

The two administration positions were filled in late December 2015. Our other two positions are in our Infrastructure Services team and we offer 2 traineeships, undertaking Cert II Horticulture. These two positions are slightly longer and are

generally for 18 months and should be advertised closer to the middle of this year, when the current trainees successfully complete their training.

While these traineeships have no permanent position attached upon completion they do create an exciting opportunity for a young person within our district.

Denatah Treloar and Samantha Black joined the District Council of the Copper Coast as Local Government Administration Trainees.

District Council of the Copper Coast Infrastructure staff Luke Choules, Tom Rover, supervisor Dave Neagle, David Poole and Trainees Willis Daveson and Sarah Arthurs.

Tide No Longer Out for Port Hughes Boat Ramp

The Development Assessment Commission (DAC) finally provided Council with all planning approvals for the redevelopment of the Port Hughes Boat Ramp. Following discussions with the South Australian Boating Facility Advisory Committee (the organisation that collects a levy when you pay your boat registration) we have advertised a public tender for the redevelopment. The tenders will be assessed in early 2016 with construction planned for later in the year.

ROAD FUNDING

Recently the Councillors voted to bring forward two million dollars of additional funding for the 15/16 roads budget and the additional resealing is now planned for March/April 2016.

This additional investment now will

allow some roads to avoid failure and the need for a full reconstruct rather than just a reseat.

If reseals are undertaken before major cracking or potholes, it protects the pavement (the layer under the black stuff) from having to be repaired.

Pavement reconstruction multiplies the cost of resurfacing a road and therefore the majority of the budget will be used on roads (based on inspections and Council's road management database) that haven't yet

failed, with a small amount quarantined for reconstruction.

The work that Council has completed in recent years on its assets valuations and replacement program has highlighted that Council hasn't collected enough income to maintain all of its assets at a level that meets community expectations. However, the excellent operational results in recent years will provide a one off boost to help close that gap and provide a small catch up that wasn't anticipated until 2022.

Elder Friendly

The Elder Friendly Committee recently held its end of year function. Council's senior staff have been guest speakers to the group on numerous occasions throughout the year and faced some challenging questions from the group. New members are always welcome and information about the group can be obtained by contacting Greg O'Connor at Council.

Mini Golf Business Sponsorship Opportunity

In December the Council voted to add another attraction to the Visitor Information Centre precinct. The new mini golf course will be designed to include features that relate to local attractions within the Copper Coast

The mini golf is ideally located at the Visitor Information Centre as it will utilise existing staff, existing café and toilet facilities. It will assist with the long term funding of providing

information services to visitors to our community.

Through sponsorship the course will also act like an advertisement for Copper Coast attractions, imagine holes advertising train rides, seafood, specialty shops, caravan parks, museums, golf, gelato, etc.

To register your interest, please contact the staff at the Visitor Information Centre.

District Council of the Copper Coast Events, Tourism and Marketing Officer Andy West and Rachael Ayles are looking forward to the establishment of a Mini Golf Course at the Copper Coast Visitor Information Centre, Kadina.

Splash Town Water Park (adjacent to Moonta Bay Caravan Park)

During the school holidays the operational hours will be from 2pm to 6pm, everyday.

As a FREE attraction, we ask that you give due consideration to other users and to follow the entry conditions. Children under 12 need adult supervision.

Any closures for maintenance will be advised (with as much notice as possible) on Facebook and our website www.coppercoast.sa.gov.au as soon as they are confirmed.

We are delighted that the Moonta Lions Club are working on a project to donate shade sails to the facility. We look forward to working with them to improve this fantastic facility. For updates please like Splash Town on Facebook.

COPPER COAST SPORTS AND LEISURE CENTRE

In December the Council received the welcome news that the Copper Coast Sports and Leisure Centre had received Federal Government funding support.

The \$10,342,400 redevelopment will proceed in 2016 after the announcement that the Copper Coast will receive \$4,803,424 in funding from the National Stronger Regions Fund.

It is a major upgrade to the facilities to meet both the existing demand and future growth in the region, it will include four Indoor Courts, Performing Arts Stage, Fitness Centre, Consulting Rooms, Café and Crèche.

It's not every day that our community is given 4.8 million dollars, so a big thank you to all involved.

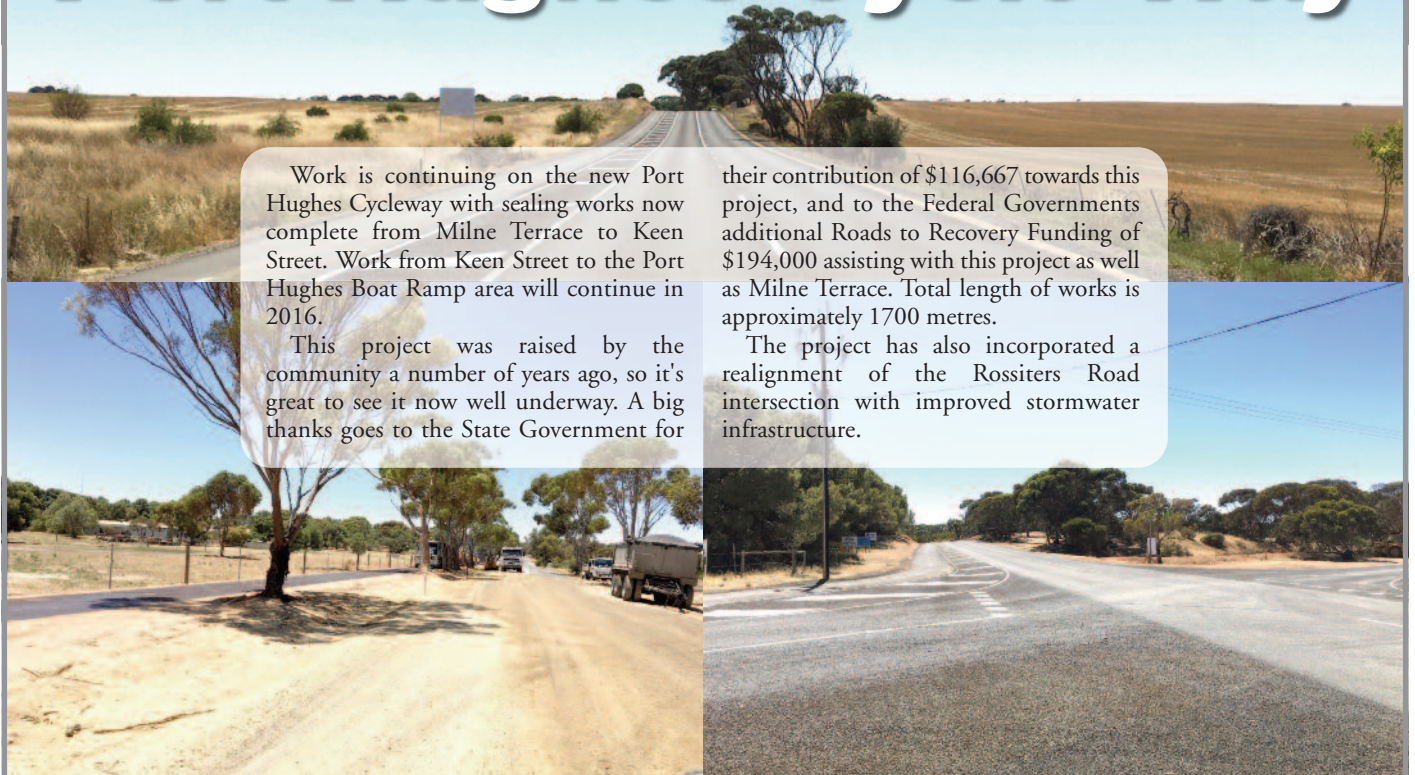

Port Hughes Cycle Way

Work is continuing on the new Port Hughes Cycleway with sealing works now complete from Milne Terrace to Keen Street. Work from Keen Street to the Port Hughes Boat Ramp area will continue in 2016.

This project was raised by the community a number of years ago, so it's great to see it now well underway. A big thanks goes to the State Government for

their contribution of \$116,667 towards this project, and to the Federal Governments additional Roads to Recovery Funding of \$194,000 assisting with this project as well as Milne Terrace. Total length of works is approximately 1700 metres.

The project has also incorporated a realignment of the Rossiters Road intersection with improved stormwater infrastructure.

Choosing the Right Builder

Building a new house may be a fulfilling experience or it may turn into a costly nightmare if you choose the wrong builder/developer. Council is often regarded as the “bad guy” when mistakes are made by builders and later picked up by Council officers.

When a house (and ancillary buildings) is not constructed or carried out in accordance with the approved plans and documentation submitted to Council in support of the development proposal, then Council may be forced by legislation to ensure that the mistakes that could have been avoided are fixed. The costs of such mistakes often results in financial losses and time delays for the owners of the new proposed house. Some of the common mistakes include:

- Structures (house and ancillary buildings) placed in the wrong location (sometimes even the wrong allotment!).
- House and ancillary structures not built in accordance with the approved plans.
- Ignoring conditions of approval.
- Construction without all required approvals obtained by the builder/developer before commencement of construction.
- Ignorance of the provisions of Land Management Agreements where they may apply.

Building a new house may be the biggest financial investment of a lifetime. Potential problems experienced during the construction of a new dwelling or additions to an existing dwelling can be limited, or even avoided, by doing your homework and choose a reputable and reliable builder/developer. Unfortunately Council cannot advise prospective new homeowners on which builder/developer to use.

Where problems with your current builder/developer are experienced visit the following sites:

<https://www.sa.gov.au/topics/citizens-and-your-rights/consumer-rights/disputes-with-a-builder-or-tradesperson>

<http://www.cbs.sa.gov.au/wcm/>

<http://www.complaintline.com.au/builder.html>

<http://www.ombudsman.sa.gov.au/>

General advice to the general public may be found on the following sites:

<http://www.archicentre.com.au/media-releases/427-dodging-the-dodgy-builders>

<http://www.productreview.com.au/c/home-builders-sa.html>

As with any profession the “word goes around”, especially in regional areas such as the Copper Coast.

Before a particular builder/developer is selected it may be wise to ask around and ask your builder/developer for contact details of previous clients to talk to them about their experience with the builder/developer that they have used.

If Council is blamed for any problems that were experienced it may be worthwhile discussing the matter with a Council officer.

Sometimes the price or the time indicated within which a development may be completed that sounds “too good to be true” may be exactly that, TOO GOOD TO BE TRUE.

To speed up the development approval process Council has introduced a 5-Day ‘QUICK’ Planning Assessment process at no additional cost to you as the owner.

Ask your builder/developer about this process or click <http://www.coppercoast.sa.gov.au/page.aspx?u=1755> and scroll down to the heading 5-Day ‘QUICK’ Planning Assessment.

Community Grants Morning Tea

Recipients of the District Council of the Copper Coast's community grants gathered to celebrate at a morning tea on Wednesday, December 2. Mayor Paul Thomas and Director of Community Services Greg O'Connor hosted the event and representatives from almost all grant-winning organisations attended. More than \$84,000 was awarded to local sporting, recreation and community organisations through this year's grant scheme.

KADINA CBD - WHAT NOW?

In December, the Council adopted the concept plans for the future redevelopment of the Kadina CBD.

The concept plan incorporates the learning through the Graves Street trial, hundreds of comments from our community as well as the work undertaken by the consultants engaged to undertake the master planning.

Once the full engineering designs are completed, Council staff will continue to work with the Kadina Chamber of Commerce to ensure that all the planned changes, such as tree location, street furniture, verandahs and other items will not cause any unforeseen problems.

The concept plan incorporates priority access for pedestrians and a number of raised intersections

to improve pedestrian safety. The centre section of Graves Street will undergo the biggest change with the footpaths widened and the parking altered. This will create a new central focal point for the CBD.

Staff will continue to work on full engineering plans, stormwater management plans, verandahs, seeking general grant funding and funding for the undergrounding of power in Frances Terrace with the hope of on ground works being able to be started in the Frances Terrace area in 2016.

Thank you to all those who participated in the public consultation, your ideas and comments were appreciated and have helped create a plan that will create a vibrant shopping centre for the future.

Weighbridge at the Resource Recovery Centre

Do you know how much your caravan weighs? Now you can find out, by accessing the weighbridge at the Copper Coast Resource Recovery Centre in Wallaroo. The

Councillors recently added this to the Councils Fees and Charges Register allowing the public access to this facility.

It currently costs \$20 per weigh.

Need any Private Road Maintenance?

Council has negotiated, through our recent road tender, for special road sealing rates to be passed onto our community.

If you would like access to this opportunity, please

contact the contractor directly.

Financial Summary

The table (right) is a summary of the audited financial results of Council for the past two years and the adopted budget for 2015-16. It is important to note that two quarters (\$800k) of the 2013/14 Financial Assistance Grant was paid in June 2013 and adversely affected the operating result in the 2012/13 year as well as 2013/14 however, during the 2013/14 financial year this was adjusted to financial year payments only. In June 2015 the Federal Government decided to reverse that decision and reverted to paying these grants in advance once again which amounted to \$918k and again affecting the operating result of 2014/15 and 2015/16.

Where do the funds come from?

Council receives some funding in grants from other Governments and raise some funds in user fees and charges, however about 71% of revenue comes from the Council Rates.

The pie chart (below) outlines the areas in which Councils receive funds in a typical year.

How is the money spent?

Council provides many services to the community, some of which are legislated and others which are provided by choice. The list on the other page is a summary of the services currently provided by Council, many of our services are largely invisible (ie storm water management, community wastewater management schemes), but are definitely a necessary service provision.

Council's expenses represent the

cost of providing these service to the community. Materials, contracts and other expenses made up 37% of the total operating expenditure of Council. Council Employees are its most valuable asset and provide the numerous services listed for the community at an operating cost of 27% of expenditure. Depreciation makes up 32% of the total operating expenditure. During 2013/14 Council increased the provision for the reinstatement of the Kadina & Moonta landfill sites and this correspondingly increased the Materials, contracts & other expenses component of expenditure by \$5.8 million. The provision (liability) will be reduced as work is completed at these sites over a number of years yet to be determined but in conjunction with the EPA. This was not amended further in 2014/15.

Whether a service is a legislative requirement of Councils, or is provided by local choice, the Local Government Act requires that a Council is "responsive to the needs, interests and aspirations of individuals and groups within its community..." and that it must "...seek to ensure that Council resources are used fairly..." (Section 8, (b) and (h)).

What assets does Council own?

When looking at the Council Balance Sheet the Council assets totalled \$285.4 million. This includes money that is owed to Council in the form of Rates and other services (Trade & other receivables), stock on hand (inventories) and for the large proportion Infrastructure, Property,

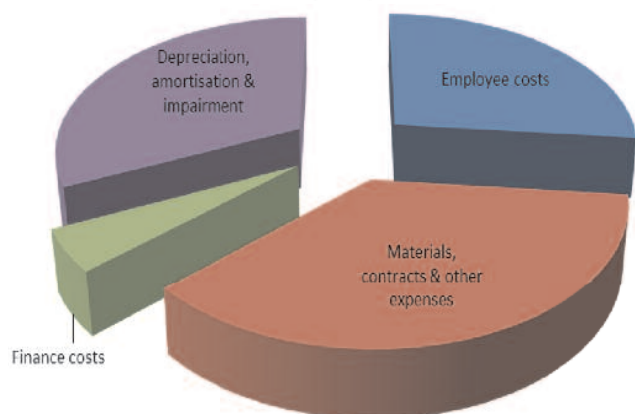

| | 2013-14 Actual \$'000 | 2014-15 Actual \$'000 | 2015-16 Budget \$'000 |

| Total Comprehensive Income | -8,400 | 6,372 | -1,581 |

Plant & Equipment. Council's non current assets (Land & Improvements, Buildings and Structures) were revalued by Maloney Field Services in 2015 at fair value. Council's CWMS schemes were revalued by management as at 30 June 2015 at fair value and cost. One of the challenges facing Local Government today is finding the revenue required to maintain the large amount of community infrastructure under its care and control.

What liabilities does Council owe?

Council's liabilities include loans, amounts owing to suppliers, amounts owing to employees for leave entitlements and amounts owing to residents of our retirement villages should they no longer occupy one of our units in Moonta or Wallaroo. Council are borrowing to build CWMS infrastructure and these borrowings total \$22,854,000 at this stage of the project.

Operating Expenditure 2014/15

You may have missed this event... ...but be sure not to miss this:

Yorke Peninsula Beach Day Out – North Beach, Wallaroo

Sunday, 21st February, 2016

The Yorke Peninsula Beach Day Out is back in 2016.

Popular demand has convinced the Copper Coast Service Clubs that people want a Beach Day Out.

On the 21st February Wallaroo North Beach will be the place to be with plenty to do for everybody.

There will plenty of cricket action with local teams competing to be the Yorke Peninsula Beach Cricket Champions. There will also be the celebrity cricket match with Ravo's All Stars taking on the XXXX Gold Celebrity team.

Great prizes will be on offer for the Apex Hole in One Golf challenge and there will be Beach Volleyball and 'Come and Try Sailing'.

The popular Rotary Beach markets will be held on the lawns at the front of the North Beach Tourist Park with plenty of bargains to be found.

Wallaroo Lions's Club will be manning the barbecue and the bar

so nobody will go hungry or thirsty.

Make sure you're on the beach from 10.00am so you don't miss any of the action.

For more information contact the Copper Coast Visitor Information Centre on 8821 2333.

Please note no BYO alcohol will be allowed at the Yorke Peninsula Beach Day Out.
