

The Heart Of It - The Need To Prioritise!

As I write this message, I am recovering from Heart By-Pass surgery. I have to admit that the experience was horrific but the outcome very optimistic. And I can at least demonstrate that I have a heart, all be it "reconditioned"! Such surgery is no doubt life changing and therefore brings forth a range of changing priorities for life.

Such an experience, demonstrates that one is not indispensable, as much as one would like to think so. After twenty eight years, missing a Council Meeting seemed a huge "let down" to me, needing to apologise for events a disappointment, but having the knowledge that I had a Deputy who could pick up my duties as I needed to prioritise was indeed, relief.

Deputy Mayor Ros Talbot has undertaken her role as Acting Mayor with enormous diligence and has demonstrated her keen commitment to our Community and Local Government. It is always difficult to pick up the mantle suddenly without preparation, but she has done so – changing her priorities and needing to prioritise.

At the same time that I was coming to terms with the need to change priorities and the Deputy Mayor need to alter hers, our Elected Members were contemplating the community submissions for the Annual Business Plan and considering the priorities that will continue to improve the Copper Coast Infrastructure and Community Wealth.

It is not ever an easy task to set priorities for the Annual Business Plan. It would be great to have the luxury to be in a position to adopt and undertake each and every submission, but that is not the reality! As I have written and spoken of before, "a dollar can only be spent once"!

The Annual Business Plan key priorities for the 2018/2019

financial year are:

- Continuous review of existing recurrent service levels provided to be undertaken in consultation with our community,
- Finalise the designs and begin reconstruction of Bay Road and Frances Terrace including improvements to the cycleway and stormwater. Obviously this will be undertaken over several financial years from both a priority of the physical works and financial capacity.
- Complete the last of the kerbing, footpaths and sealing in the redevelopment of Kadina Business District are as well as finalising street furniture, trees, garden beds, CCTV, signage and line marking,
- To work with the contractors (at their expense) to reinstate the pontoons and access within the Wallaroo Swimming Enclosure,
- Finalise the Moonta CBD Masterplan and begin the implementation of minor works. Again this project will be staged over several years, prioritising to minimise disruption to business operators, shoppers and tourists, as well as the financial capacity.
- Repair the Sea Walls of Moonta Bay and Port Hughes and the breakwaters at Wallaroo. These projects too will go beyond the 2018/2019 year.
- Facilitating the future financial sustainability of our Council by ensuring the financial operations remain within policy targets adopted for such purpose,
- Continuation of Council's annual works program with a commitment to fund road reconstruction and reseals, footpaths, walking trails and foreshore redevelopments.

This will involve the spending of \$8.5million of Council's own funds on Capital Works. Previously we did not have the

"Suit & Tie jettisoned for a Cardio Rehab workout at the CCSLC"

financial capacity to expend such level of funds on capital works from our own funds, but the difficult task of prioritising over the past few years has enabled us to reach this acceptable level of expenditure.

Expenditure on the restoration of some of our significant buildings, including the Kadina and Moonta Town Halls needs to be new priorities because of the unexpected deterioration to these buildings. Similarly the difficult decision about the Kadina Cemetery Wall, will be balanced against Community expectations, its historical significance, its purpose and other Community priorities.

Changes in refuse and in particular recycling will be an emerging issue for Local Government that will force the rethink of a number of priorities over the next few years. As time evolves there are sure to be new ideas, new pressures and changing Community needs that will constantly challenge our Council to reassess its priorities.

Your Elected Members do have a heart, they too are proud to call the Copper Coast home and appreciate our community needs and therefore will constantly be prepared to prioritise, ensuring that the Copper Coast remains a Lifestyle Location of Choice!

Mayor Paul Thomas AM

YP COUNCIL ALLIANCE COLLABORATION: In Canberra Acting Mayor Cr Ros Talbot & Acting CEO Wade Della Torre join a delegation with the Deputy Prime Minister, Michael McCormack.

2018 COUNCIL CALENDAR

July

- 2nd Community Grant Applications open
- 26th Official Opening of the Copper Coast Sport & Leisure Centre Redevelopment
- 29th Copper Coast Sport & Leisure Centre Open Day – (see page 12 for information).

August

- 1st Council meeting – 7.00 pm, Council Chambers, Town Hall, Kadina
- 8th Council Assessment Panel (CAP) meeting, 5.30 p.m., Town Hall Function Room, Kadina
- 10th Enrolments to vote for the Local Government Elections close at 5.00 pm
- 17th Community Grant Applications close.

September

- 4th Nominations for the Local Government Elections open
- 5th Council meeting – 7.00 pm, Council Chambers, Town Hall, Kadina
- 10th Audit Committee meeting 9.30 a.m., Copper Hill Meeting Room, Town Hall Kadina.
- 12th Council Assessment Panel (CAP) meeting, 5.30 pm, Town Hall Function Room, Kadina
- 18th Nominations for the Local Government Elections close at 12 noon

Please note that changes to the above meetings will be published on Council's website along with other meeting dates. All public are welcome to attend these meetings.

Special meetings of Council may be called at other times throughout the year and will be added to the website as required.

WAIVING CWMS CONNECTION FEES

Good news for the Moonta, Moonta Bay and Port Hughes residents! In terms of Council's Community Wastewater Management Scheme (CWMS) Policy, waiver of connection fees to the recently installed CWMS System ends on 30 June 2018. However, Council recently resolved to extend the waiver of the connection fees for another

12 months from 1 July 2018 to 30 June 2019.

Council adopted the CWMS Policy at the start of the implementation of the system, providing residents in the three townships with a period of five years to connect to the system without paying a connection fee.

This five year period ended in June 2017 when Council resolved to extend the cut-off

date to 30 June 2017.

The latest extension to 30 June 2019 is unlikely to be repeated.

Owners of properties not yet connected to the CWMS are encouraged to make use of the window of opportunity provided by Council to save on costs when connecting to the system.

New Laws for all Dog and Cat Owners

New laws for cat and dog owners will come into effect on 1 July 2018.

Microchipping

- From 1 July 2018, all dogs and cats must be microchipped.
- New dogs and cats must be microchipped by 12 weeks of age or at the point of sale.
- Veterinarians may exempt an animal for medical reasons.
- Visit chipblitz.com for future dates, locations and to make a booking. Alternatively, contact your local vet.

Desexing

- Dogs and cats born after the 1 July 2018 must be desexed by 6 months of age or 28 days after purchase by the owner.
- Working livestock dogs as well as dogs and cats owned by registered breeders will be exempt, however will still need to be microchipped.

Breeders

- People who breed dogs and cats for sale after 1 July 2018 must register with the Dog and Cat Management Board as a breeder and will be issued a Breeder Registration Number (BRN).
- The BRN must be included in all advertisements for dogs and cats for sale.
- Breeders are required to disclose the BRN and other information to the buyer at the point of sale.

- All breeders are required to follow the new industry standards and guidelines.

Dogs and Cats Online

- From 1 July 2018, Dogs and Cats Online (DACO) will be the central database for microchipped and registered dogs and payments.
- DACO will also be the register of breeders.
- Existing dog owners should receive a renewal notice in the mail during July 2018
 - This will include their dog's new lifetime registration disc (replacing the annual disc) and instructions on how to complete their annual dog registration on DACO.
 - Payments are required by 31 August 2018.
 - If you do not receive a renewal notice for your dog, please contact Council.

EVENTS IN THE COPPER COAST

Wine, Wheels & Whiting

Planning is underway for the 4th Wine, Wheels & Whiting to be held in the Clare & Gilbert Valley and the Copper Coast on the 21st and 22nd September 2018, a partnership between the Councils and Bike SA to promote the great lifestyle opportunities the regions have to offer.

The event features 3 great road rides to choose from – 125km, 70km and 45km, dinners in both Clare and Wallaroo and a showcase of local food, wine and entertainment.

A 'Sounds by the Sea' event will be held at the finish line of the rides on Saturday 22nd September at the John Tce Reserve Wallaroo featuring live entertainment by local artists, market, food and produce stalls.

For further information please visit www.bikesa.asn.au/winewheelswhiting

Copper Coast Cycling Cup

The rounds of the South Australian Elite Cycling Series return to the Copper Coast in October 2018. The series will feature a 100km Road Race on Saturday 6th starting from and finishing at the Wallaroo Holiday Park and a street criterium around Moonta's Queen Square on Sunday 7th.

Both days were strongly supported by these elite cyclists last year and offered exceptional viewing for those in attendance.

Please contact the Copper Coast Tourism Centre on 88212333 for more info.

Splash Town Opening

Port Hughes Boat Ramp

The Port Hughes Boat Ramp project is nearing completion. Timing of the final weeks has been made to avoid major disruptions to fishing and boating activities.

The final stage has involved a new asphalt sealed car park, new stormwater provisions, lighting, landscaping and a drive-through boat rinsing area.

We have a dedicated Facebook page (Port Hughes Boat Ramp - Copper Coast) to keep you updated. The page

will also give you updates and advanced warning on our ongoing dredging program. Given the improvements of the facility Council is monitoring sand movements throughout the year by survey of the basin floor and will use this information to forward plan dredging regimes for the long term. Please keep us informed by messaging the Facebook page or emailing info@coppercoast.sa.gov.au of any maintenance of sand related issues.

Walla Walla Re

There has been activity in the Walla Walla Park with the new cabins well under

Copper Coast and Leisure (CCSL)

The new CCSL The official opening of the Copper Coast Sports and Leisure Centre will be held 4.30pm on Sunday 1 July 2018 by Deputy Mayor Michael McCormick. Following the opening there will be an open house for the public on Sunday 1 July 2018.

Council would encourage all people involved with the project to attend the opening and to encourage the community to support the fantastic community

Kadina CBD Stage 2

The Kadina CBD project works have been progressing through the town giving us a fantastic visual of what the completed project will look like throughout the CBD. Works have included asphalt sealing, stormwater, lighting, electrical, new street trees, concrete crossovers (including laneways) and footpath paving. Some of the paving around business entrances has been done outside of normal trading hours in order to minimise disruption.

The project is progressing systematically throughout the town starting from Day Street on the western edge through to Digby Street where works commence in July. The first section will be the feature shared use area in the heart of Graves Street where verandahs are currently being replaced promoting a consistent streetscape with large footpath spaces.

The civil contractor for these works has rented an office space on Goyder Street and is dedicated to assisting businesses throughout this project and to make the transition to a new CBD as pain free as possible. They continue to live and eat locally, and employ a number of local staff and utilise contractors and supplies locally where possible.

Christmas in Kadina will be an exciting time for our community with many large projects concluding.

Copper Coast Holiday Park Redevelopment

There are plenty of amenities at the Copper Coast Holiday Park. The new foreshore promenade, the new amenity building and kiosk are taking shape in readiness for a busy summer period ahead.

Copper Coast Sport Centre (SLC)

The SLC is here. The opening of the Copper Coast Sport Centre will be on Thursday 26th of July. Deputy Prime Minister Malcolm Turnbull will be in the back.

There will be an open day to the public from the official opening on the day the 29th of July.

We would like to thank all the people who have helped with this project and encourage you to come along to help celebrate this community achievement.

Copper Coast Highway Realignment

The realignment of the Copper Coast Highway is now linked to the Frances Terrace Carpark though "Station Road".

Construction of the new ALDI store allotment (western side of the road) are well underway with an anticipated opening by Christmas.

KERBSIDE WASTE

There is an old adage 'one man's waste is another man's treasure'. Unfortunately we are finding it hard to find the treasure in amongst the many costs associated with processing our community's waste.

Currently, the State Government's waste levy, imposed on Councils for their waste, contribute approximately 40% to the fees charged at the Resource Recovery Centre (RRC) in Wallaroo.

Unfortunately, these increases have to be absorbed by the fees charged at the RRC and your general rates.

However, the increased charges do not give us an excuse to harm our environment, or by doing the wrong thing, increase the cost to the community even more.

It appears that some ratepayers are choosing to mix their green waste with the general waste which is collected through our kerbside waste collection (see photo right).

There are some very good reasons we shouldn't be putting green waste in your bin with the red lid.

- By sending organic waste (food scraps and garden trimmings) to landfill we are burying matter that will potentially decompose without oxygen to produce methane. Methane is a greenhouse gas (GHG) over 20 times more powerful than carbon dioxide.
- It can result in major damage as a result of spontaneous combustion of green waste mixed with general waste. It was only the swift response of staff who succeeded in putting out a fire before it could spread, that recently saved our RRC from catching alight.

- It costs more. These costs put a significant financial burden on our local community and should be minimised. Clean, sorted green waste can be re-used as mulch, thereby minimising the cost to our community.
- Under the Local Nuisance and Litter Control Act 2016, fines in excess of \$1,000 can be imposed for individual households. Higher penalties will apply to businesses.

Mixing green waste with any kerbside waste is illegal and Council is taking steps to

reduce the risk posed by the mixing of green waste with other waste. The steps that will be taken include the following:

- Using cameras on the vehicles collecting the kerbside waste to detect illegal materials. This will assist in pinpointing the location with photographic evidence of the property where the waste was collected.
- Using staff or contractors to do spot-checks for any waste not intended for kerbside pickup. If illegal waste is found in a wheelie bin, penalties will apply.

Attention Entrepreneurs and Landlords

The Council is creating an Economic Development and Marketing Plan.

The first stage has been completed. It involved creating a Retail Market Profile Report for the Copper Coast. This document will be an excellent tool for landlords to attract tenants and for small businesses to use as an input for the development of Business Plans. The report can be downloaded from our website at this link <http://www.coppercoast.sa.gov.au/page.aspx?u=1672>

Our community's vision is to become "South Australia's lifestyle location of choice to live and visit".

While this is achievable and a decade of strong growth has confirmed this vision, we know that good planning and decision making

can assist in making this vision a reality.

This project is about answering two key questions:

- What will attract people & businesses to the Copper Coast?
- and
- How do we tell them about it?

Part A of the process has been to produce a Copper Coast Retail Market Profile.

Part B will involve a variety of community inputs, including forums, surveys and one on one meetings.

This project was funded through a grant under the Building Better Regions Fund.

Optional green waste bin stickers are available from Council to Ratepayers who do not want to transport their green waste to the RRC. These stickers are currently available at a cost of \$150 per year and the bins are collected once a month. See our website for more information.

Minimising your fees charged at Resource Recovery Centre

Like many other waste facilities around Australia, our fees are charged based on the size of the vessel in which the waste is transported. This arrangement has been in place for many years and there are good reasons, including:

- To remove the “guesswork” to ensure consistency in the fees charged; and
- Protect Council staff against false allegations where inconsistent charging may occur due to staff having to estimate an approximate load volume.
- It keeps our staff safe, by keeping them at ground level without the need to climb on loads.

To minimize their costs residents are advised to:

- 1) Pick the most appropriate vehicle size to take their waste to the RRC to minimize their costs;
- 2) Sort the waste to avoid higher charges for “mixed loads”; and
- 3) Compact the waste when using an open trailer or utility vehicle.

By sorting your waste and/or reducing your loads into separate materials you are not only saving yourself money, but you are also helping the environment. ***Less waste is buried in landfill when you sort it.***

Damage to Council roads

When vehicles are driving on the edge of a sealed road the seal of the road is damaged, shortening the lifespan of the road. When a refuse bin is not placed close to the edge

Sealed road with kerbing

Sealed road with no kerbing

Gravel road

of a traffic lane or kerbside it forces the heavy collection vehicle closer to the edge of the road, damaging the seal along the edge of the road.

Residents are urged to place the bins no further than 0.5 meters from a traffic lane

to allow the pick-up truck to steer away from the edge of the sealed road (refer to photos above). In future, to protect our roads, the contractor may refuse to empty a bin if it is placed too far from the edge of the traffic lane.

Annual Business Plan & Budget Summary 2018/19

The Annual Business plan sets out the Council's proposed services, programs and projects for 2018-19. It aims to maintain a variety of services and facilities for the community and continue progress toward the longer term objectives for the Council area as set out in the Strategic Management Plan adopted by the Council.

Specific objectives for the year are proposed consistent with the Council's Long Term Financial Plan and Asset Management Plans to ensure the long term sustainability of the Council's financial performance and position.

Councils' primary sources of income are rate income and grant revenue. The following table provides a summary of the Budgeted Operating Income and Expenditure for the 2018-19 year.

\$ Budget at a Glance			
Operating income	\$m	Operating expenses	\$m
Rates	\$22.27	Employee Costs	\$7.36
User/Statutory Charges	\$3.70	Material, Contract, Other	\$10.68
Grants	\$1.91	Finance Costs	\$1.98
Other Income	\$0.82	Depreciation	\$9.08
	\$28.70		\$29.10

The result being an estimated operating deficit of \$400,000 before capital grants and estimated income from asset sales.

CONTACT US

A full copy of the Annual Business Plan and Budget for 2018-19 is available on our website at www.coppercoast.sa.gov.au or to view at the Council office.

Significant Influences and Priorities

A number of significant factors have influenced the preparation of the Council's 2018/19 Business Plan and Budget. These include:

- Storm damage to Council's foreshore assets.
- An operating deficit budget in the short term and working to reduce this consistent with the Long Term Financial Plan
- The Local Government Price Index of 2.9% as at December 2017 quarter

- Adelaide All Groups CPI of 2.3% as at December 2017 quarter
- Enterprise Bargaining Agreement wage increases
- Known decreases or minimal increases in revenue sources from the Federal & State Governments
- Increases in levies imposed by other tiers of Government including NRM levy and EPA Waste Levy
- Service delivery & infrastructure needs for a growing population
- The need to address the issue of financial sustainability and asset renewal including roads, footpaths, CWMS, Council properties and stormwater drainage with more funding for infrastructure renewal

In response to these factors, and to minimise the burden on rate payers, the Annual Business Plan has been prepared within the following guidelines:

- The Annual Business Plan will result in the total revenue raised through general rates increasing by approximately 3.8% plus revenue from newly developed properties.
- Total operating expenses to be held where possible, within levels of the previous financial years and adjusted by the Local Government Price Index allowing above indexation increases to be allocated directly to maintaining community assets, such as stormwater infrastructure, roads and footpaths.
- Continuous review of a range of spending to reflect a need to "tighten our belts" however maintaining existing service levels

What it means for Rates in 2018/19

Rates Revenue

Comparing rates between Councils is difficult. Every Council has different attributes and provides varying services or similar services at different standards. Councils deliver an extensive range and levels of service to the community with the greater part determined by the expectations of our communities.

The price of delivering and providing these services is spread across the community in the form of rates. Council determines a rate in the dollar, based on the amount of revenue that will be required to meet the ongoing cost of providing services to our community for the coming year. Council's revenue for 2018-19 includes an estimated \$17.1 million from general rates.

Council has increased the differential rate

in the dollar by 3.5% for residential properties, reduced the primary production differential rate in the dollar by 4% and the remainder of the differential rates have increased by 3.8%. The actual increase payable by any individual ratepayer may be more or less than this, depending on the movement in the capital value of each property.

The fixed charge has increased from \$566 to \$588 which is a 3.8% increase.

Separate Rates

Port Hughes Golf Course (Dunes)

The Council introduced in 2013/14 a separate rate to partly fund the maintenance of the Port Hughes Golf Course (Dunes) which replaced the existing annual development levy that each land owner agreed to pay to the developer of The Dunes Port Hughes. This will continue at \$712 per property.

Owen Terrace Verandah Project

A separate rate of \$195 per linear metre was adopted to fund the replacement of the Verandah's in Wallaroo in 2014/15 and this project was completed in 2015/16 however funded over a five year period up to and including 2018/19.

Kadina CBD

The local traders in the Kadina business district requested a separate rate to fund \$30,000 of planning/marketing towards development in this area. This rate will continue under a new name and varied purpose and these funds will be transferred to the Kadina Chamber of Commerce who will administer them.

Riley Cove Community Corporation

During 2014/15 residents of the Riley Cove Community Corporation approached council to adopt a separate rate to fund the internal road maintenance at the Riley Cove Village. This rate will continue for a period of 100 years and reviewed regularly during this period.

Moyle Street Kerbing

In the 2017/18 budget Council adopted a separate rate for the residents adjoining Moyle Street for an upgrade to the road by installing kerbing which will be in place for a 5 year period. This will be the second year of the application of this rate.

Olive Parade Kerbing

At the Council meeting 6th September 2017 the Council supported the motion to install kerbing for properties adjoining Olive Parade, New Town in the 2018/19 budget at the rate of \$164 per allotment per certificate

of title. This rate will be applied over a 5 year period ending in 2022/23.

Service Charge

The annual service charge is budgeted to increase by \$15 per property unit to \$518, in respect of all land to which the Council provides or makes available the Community Wastewater Management scheme.

Adoption of Valuations

Council will adopt the valuations made by the State Valuation Office as provided to the Council in June 2018. Council has no role in this process. It is also important to note that the lodgement of an objection to the Valuer-General does not change the due date or amount for payment of rates.

The Year in Review 2017/18

The 2017/18 financial year saw Council continue to focus on the renewal and replacement of infrastructure such as CWMS, roads, footpaths and drainage. Due to storm damage the focus continued to be placed on our foreshore assets.

Commitments to major projects and partnerships also continued to include upgrades to CWMS treatment plants and major infrastructure, capping of the closed Wallaroo & Moonta landfill sites, Stormwater plans, continuation of the Footpath program and Foreshore Upgrades (including Port Hughes Boat Ramp).

The completion of the upgrade to the Copper Coast Sport & Recreation Centre and significant works on the Kadina CBD. Upgrades to the Education precinct and the Wallaroo Holiday Park are also underway.

Key changes to the ABP and Budget resulting from the Public Consultation

- Council will undertake structural and other critical works to the Moonta and Kadina Town Halls.
- Council have included the installation of up to ten (10) new doggy bag dispensers around the community as required.
- It is planned during this budget to undertake a review of the beach access points at Moonta Bay with the creation of a DDA compliant access (in the area of greatest demand) as well as a delineated access point from Marine Parade.
- Council is to undertake a programmed upgrade (\$108,500) of toilet facilities within the Copper Coast. Part of the budget allocation will support the construction of the new toilets in the Moonta township that have been identified in the Master Plan.
- A key focus for this period will be determining a long term solution for the cemetery walls/fencing. The budget allocation will be used to begin implementation of that solution once it has been finalised and agreed to by Council. The process will include consultation on the proposed plans with the community.

Project Priorities and Capital Expenditure

Project priorities to be undertaken during the year ending 30 June 2019 are as follows:

- Continuous review of existing recurrent service levels provided to be undertaken in consultation with our community;
- Finalise the designs and begin the reconstruction of Bay Road and Frances Terrace including improvements to the cycleway and stormwater. (Note: this is a multi-year, multi-budget project)
- Complete the last of the kerbing, footpaths and sealing in the redevelopment of the Kadina Business District area as well as finalising, street furniture, trees, garden beds, CCTV, signage and line marking.
- To work with the contractor (at their cost) to reinstate the pontoons and access within the Wallaroo Swimming Enclosure.
- Finalise the Moonta CBD Master plan and begin the implementation of minor works. (Note: this is a multi-year, multi-budget project)
- Repair the sea walls at Moonta Bay and Port Hughes and the breakwaters at Wallaroo. (Note: this is a multi-year, multi-budget project)
- Facilitating the future financial sustainability of Council by ensuring the financial operations remain within policy targets adopted for such purpose;
- Continuation of Council's annual works program with a commitment to fund road reconstructions and reseals, footpaths, walking trails and foreshore developments;
- Continuation of the development of storm water management plans along with maintenance and renewal of storm water infrastructure.

All uncompleted projects and their funding allocation currently included in the 17/18 budget will continue and form part of the 18/19 works program.

Council staff recently participated in "Going Pink" raising funds and awareness for the National Breast Cancer Foundation.

Breast cancer is the most commonly diagnosed cancer in Australia, with 50 women diagnosed every day and 148 men

expected to be diagnosed this year.

It is estimated that 3,157 people in Australia will die in 2018 from breast cancer, including 28 men, leaving countless families devastated. That's eight women a day!

Staff have been very passionate about

this cause and have seen this as an opportunity to give something back to a cause that affects so many within our community:
