

Mayor's Message...

10 Years of the Copper Post

As I sit to write this message for the Copper Post I am amazed that it was twelve months ago that I was writing my first article as Mayor of the Copper Coast. I am in disbelief that a year has transpired already and it instigates a time of reflection and evaluation of the year that has so quickly passed.

Twelve months ago, we had just been through an election process. I was elected as a new Mayor, a privilege and honour that I will never take for granted. We also had four new Elected Members joining five returning members, a great mix for our region's future.

Over the last year I believe we have developed into a strong team, working together to make what we believe are the best decisions for the Copper Coast. Not to say that we are always in agreement, but healthy debate is entered into and a decision is made which we all accept and work towards achieving the best outcome.

Reflecting on last year's election process, there were many words used and promises made. I think every candidate used words such as transparency, communication and consultation. In essence many of these words had similar end goals and I think it was pretty obvious the community wanted effective communication and consultation.

Communication and consultations are not, and should not be, an end in themselves. Nevertheless, used properly they have a key role to play both in ensuring success of the Copper Coast Council and involving the Residents and Ratepayers of the Copper Coast.

Consultation can identify opportunities, assist decision making and help ensure any new ideas work effectively. Consultation is a two-way process between the Council and the Residents and Ratepayers where we talk to each other, listen to each other's concerns and seek and share views.

The principle of transparency requires that our decisions and actions are open to public scrutiny and the public has a right to access information.

Transparent leadership allows us to be more honest about our individual viewpoints and more open about expressing them. The more openness and honesty I can facilitate in the Elected Members, the faster we'll be able to work together to achieve a common end goal.

I believe over the last twelve months we have improved the communication,

Vasco Da Gama captain Michail Smyrniaos and Copper Coast Council Mayor Roslyn Talbot exchanged a gift and plaque to commemorate the ship's maiden visit to Wallaroo.

consultation and transparency of the Copper Coast Council. We are working hard to fulfill our election promises.

Council has instigated many initiatives to make information available to the community and with the ever-growing involvement of social media, information can easily be relayed to the community quickly and efficiently.

There has been much public consultation entered into over the last twelve months. We had great responses surrounding suggestions for both our Long-Term Strategic Plan and our Annual Business Plan. Community input ensures we are delivering what the community requires and wants within our budgetary constraints.

Consultation surrounding the Moonta Master Plan and Bay Road upgrade has been extensive and we will continue to work with the community to deliver projects that

everyone can be proud of.

Of course, communication and consultation aren't new. Council has been doing this for a long time and I believe doing it well. We are always looking for ways to improve and we will strive to get better.

This Copper Post is an excellent tool for communicating Council activities and this Copper Coast Newsletter celebrates 10 years of this publication. A publication that is full of interesting articles and information. It is a valuable tool in our communication endeavours and a tool we will continue to use.

As we enter into a New Year we will continue to strive to be better. I can promise we will work on effective two-way communication and together we will ensure the Copper Coast continues to be the Lifestyle Location of Choice.

Roslyn Talbot, Mayor

- The 2019/2020 season times have been released, and Splash Town officially re-opened on Saturday the 28th of September.
- Operating times from NOW until April 2020 (see table right).

All open times are weather permitting, and Splash Town will be closed during inclement weather or for unplanned maintenance. This will be advised on the Facebook Page 'Splash Town – Copper Coast' when known.

We hope you enjoy this FREE to use Community Water Park.

SPLASHTOWN SHADES COMING IN 2020: If you have been down to Splash Town - Copper Coast recently, you may have noticed a sign on the fence showing the proposed design.

As part of the \$1million Council received

Time Frame	Opening Times	Official Dates
SA School Christmas Holidays	OPEN EVERY DAY noon-6pm	14/12/19-27/01/20
Term 1 2020 SA Schools	Closed Monday and Tuesday OPEN Wednesday-Sunday 2pm-6pm	28/01/20-09/04/20
SA School Holidays and Easter Long Weekend	OPEN EVERY DAY 10am-4pm	10/04/20-26/04/20

in Drought Funding under the Federal Government Drought Communities Programme - Extension, Splash Town - Copper Coast will have 4 shade sails installed in 2020! Project funding is intended to

provide short-term support, including by boosting local employment and procurement, and addressing social and community needs.

Check out Splash Town - Copper Coast for the full calendar of opening hours for summer!

2020 COUNCIL CALENDAR

FEB	12th Council Assessment Panel meeting, 5.30 p.m., Town Hall Function Room, Kadina
	12th Council meeting – 7.00 pm, Council Chambers, Town Hall, Kadina
	17th Audit Committee meeting 9.30 a.m., Copper Hill meeting room, Town Hall Kadina
MAR	4th Council meeting – 7.00 pm, Council Chambers, Town Hall, Kadina
	11th Council Assessment Panel meeting, 5.30 pm, Town Hall Function Room, Kadina
APR	1st Council meeting – 7.00 pm, Council Chambers, Town Hall, Kadina
	8th Council Assessment Panel meeting, 5.30 pm, Town Hall Function Room, Kadina
	20th Audit Committee meeting 9.30 a.m., Copper Hill meeting room, Town Hall Kadina

Please note that changes to the above meetings will be published on Council's website along with other meeting dates.

All public are welcome to attend these meetings.

Special meetings of Council may be called at other times throughout the year and will be added to the website as required.

TRAINEESHIP PROGRAM

Council continues to support our local youth through our Traineeship Program.

In 2019, Hayley Gray as a Year 12 school leaver, successfully commenced and completed her Cert III in Local Government and subsequently won a position with Council in the Records Department.

Marli Mullins, who also joined as a Year 12 school leaver in 2018, continues in his 2 year Cert III Horticulture traineeship which is due to be completed in Sept 2020.

Jayson Cain joined the CWMS team as a trainee undertaking a 3 year traineeship in 2019, initially as a Year 12 school based trainee. His traineeship is due to be completed in Sept 2021.

Jack Leighton gained a 3 year Cert III Civil Construction traineeship in 2018 upon completion of Year 12 in 2017. This traineeship continues to Feb 2020 and Jack will then remain with Council as he successfully gained a permanent position within Council's Construction team in 2019.

Shaun Morfey is employed as a building

Jayson Cain, Jack Leighton, Madison Millward, Bryar Ostendorf, Shaun Morfey and Hayley Gray. Absent Aidan Stock and Marli Mullins.

assistant and in 2018 he commenced a Cert III in Carpentry. Shaun will complete his apprenticeship in 2021 as a qualified carpenter.

Bryar Ostendorf joined Council on completion of Year 12 in 2017 as a Cert III IT trainee. He has since also completed a Cert IV in IT in 2019 and successfully gained ongoing employment with the IT Department.

Madison Millward joined the workshop

in 2018 as an apprentice mechanic. He is undertaking a Cert III Mobile Plant technology until completing the qualification in 2023.

Aidan Stock also commenced with Council in 2018 upon completion of Year 12 in 2017. Aidan is completing an Associate Degree of Building Design to gain qualifications as a Building Inspector. This qualification is due to be completed in 2020.

Copper Coast Sport and Leisure Centre

On the 1st of December CCSLC held our annual Family Fun Day, with a great response from the community attending.

We held a range of fun activities that families could become involved in, to show the community we are not just a gym!

Father Christmas was in attendance, Kinder Fun was launched with our new instructor Georgina Weissmann, we held Free Swim and Play Sessions in our pool, had Free Face Painting and Jumping Castles for the kids. Plus

for Mum and Dad we had Free Coffee's and Market Stalls from local members of the community to assist with Christmas Shopping!

The local Emergency Services, MFS, CFS and Ambulance came along so the kids could have a touch, photo and chat with their crews, what a fantastic opportunity for all!

Heading into January 2020 we are looking forward to a few new initiatives around the centre, including a revised group fitness timetable, extra programs for the kids, and the

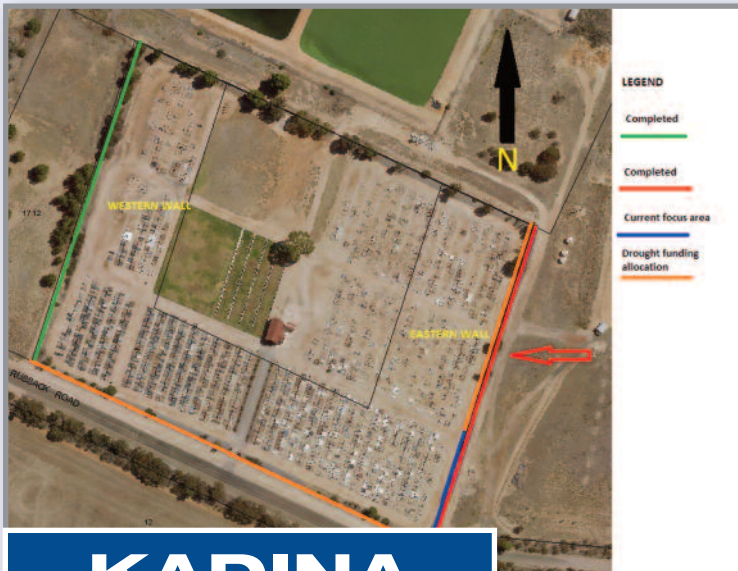

return of swimming lessons after the Christmas break.

Keep an eye out for our School Holiday Activities, which will include Swim and Play sessions for the family, and Free Kinder Fun sessions for the little ones.

We would like to offer the community to enrol in Learn to Swim Lessons and receive your first lesson FREE!

We look forward to continuing to see the community utilise the centre.

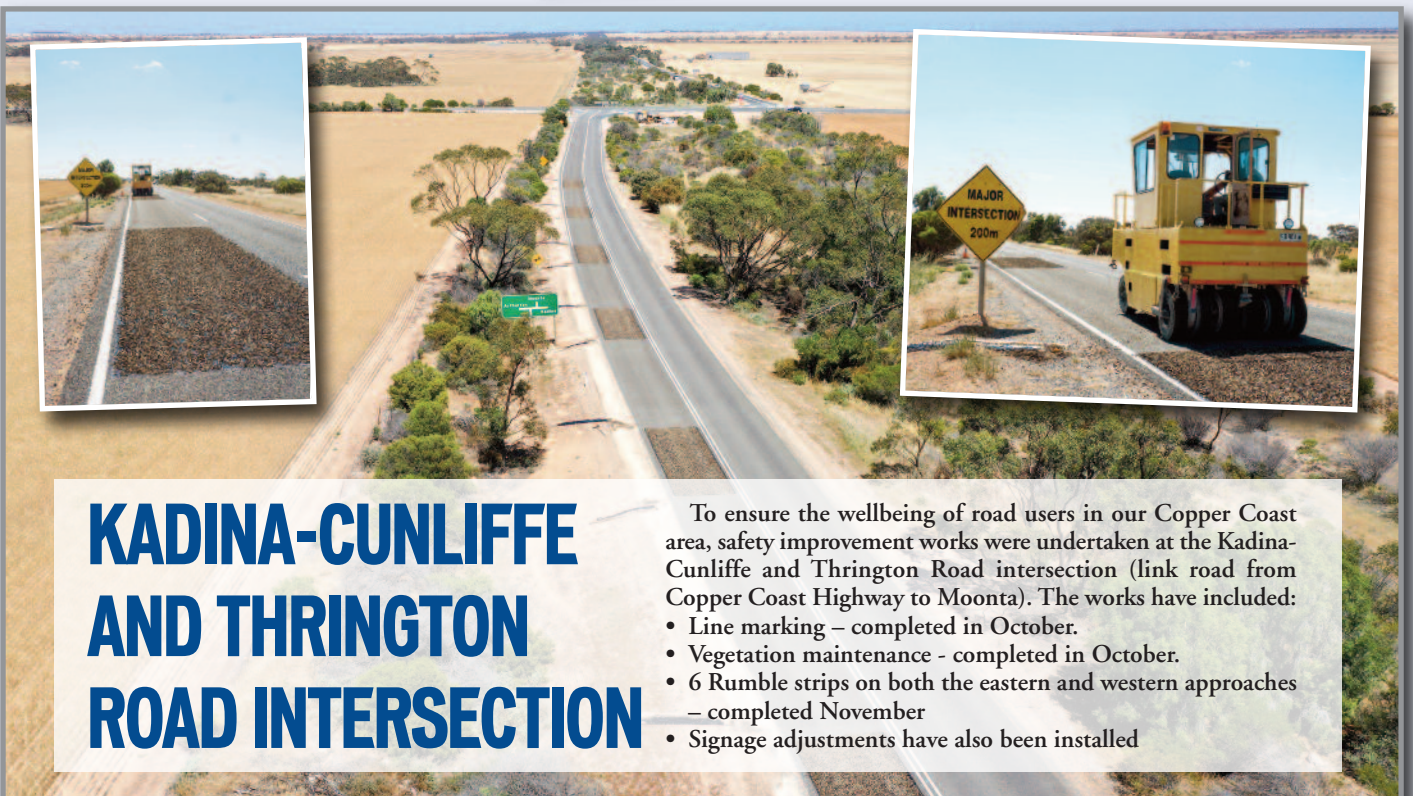

KADINA CEMETERY

Restoration works are continuing on the Kadina Cemetery Wall, with the focus now on the Eastern inside wall.

- Clearing of intrusive vegetation adjacent to the walls.
- Works will continue with the eastern wall and through to the front wall under the recent drought funding allocations
- Community volunteers continue to assist with this project.
- Images showing the construction phase of the wall during, and after
- Map of Wall works completed and scheduled.

KADINA-CUNLIFFE AND THRINGTON ROAD INTERSECTION

To ensure the wellbeing of road users in our Copper Coast area, safety improvement works were undertaken at the Kadina-Cunliffe and Thrington Road intersection (link road from Copper Coast Highway to Moonta). The works have included:

- Line marking – completed in October.
- Vegetation maintenance - completed in October.
- 6 Rumble strips on both the eastern and western approaches – completed November
- Signage adjustments have also been installed

Bay Road Consultation

As part of the Bay Road Consultation phase, public information sessions were held on Wednesday the 23rd October and Thursday 24th of October. The feedback we received is much appreciated, and has helped shape the Bay Road project as it continues to come to fruition.

In addition, of the 3 original concept plans for Bay Road and the Frances Terrace intersection, Council has adopted Bay Road Concept option 3, and Bay Road/Frances Terrace Intersection Concept option A.

If you haven't seen the designs in detail and wish to, you can view them at either the Moonta Tourist Office, or the Kadina Council Office. Alternatively, to view the plans in High Resolution, please go to www.coppercoast.sa.gov.au and search 'Bay Road' as the pictures are far too big for viewing in detail in this newsletter.

The concepts will now progress to the detail stage of the process, where residents will again have the opportunity to comment further on the concepts. There will be more information to come on the date for this consultation session when it is confirmed.

Road Sealing Program

You can find the full list of roads to be resealed on Council's website.

Other key road projects include a multi-million dollar, multi-year upgrade of Bay Road in Moonta Bay, an expanded rural road resheeting program and a number of smaller road reconstruction projects. The road reseal program commenced on the 24th September 2019 and will be completed within the 2019 calendar year.

We offer these tips to residents during the resealing program:

- Drive slowly – watch out for workers and loose road covering
- Where possible avoid driving, walking or riding on resealed areas for at least 24 hours
- Remove footwear before going indoors – tar sticks to everything!

Wallaroo Swimming Enclosure

The Wallaroo Swimming Enclosure has not been operational as designed for some time. The Council issued an Offer Of Settlement before Action to Seaslip; the business that constructed the Wallaroo Swimming Enclosure. A response has been received from Seaslip solicitors. Council is endeavouring to progress and resolve this project as soon as possible.

Wallaroo Road Swap -

Department of Planning, Transport and Infrastructure (DPTI)

Given the communities interest in improving the current road network around the Wallaroo Central Business District, with a focus on Kadina Road and Victoria Street, Council has been advocating this cause on behalf of its community with the State Government. The intent is to develop a suitable road swap agreement to obtain local control over the key entrance roads to Wallaroo while transferring the heavy vehicle bypass road to DPTI.

VICTORIA SQUARE

The much loved, and highly popular Victoria Square in Kadina is currently undergoing some service upgrades which will help keep the park in immaculate condition all year round. The upgrades include:

- Irrigation and seed laying
- Rotunda restoration works including a paved path surrounding the Rotunda

Council is communicating developments with the Rotary Club of Northern Yorke Peninsula to ensure the Rotary Kadina Markets and future infrastructure supports ongoing activities within the park.

We appreciate your patience throughout the works, and it is fantastic to see the grass coming back as quickly as it has.

Cruise Ships visit the Copper Coast

Walloo welcomed its first cruise ship in history when the Vasco da Gama docked on Saturday 7th December. It then returned on 3rd January carrying up to 1200 passengers and 600 crew each visit.

There were many attractions and experiences to be enjoyed on each day including the NYP Rotary Markets held on the John Tce Reserve, local entertainment, shopping incentives, a pop-up Visitor Centre in the old Railway Station providing local tour bookings, souvenirs and local produce and a hop on hop off bus shuttle between Wallaroo, Moonta and Kadina.

With the assistance of more than 90 registered

volunteers the Copper Coast Tourism Team was able to successfully welcome and coordinate the visits showcasing all that we have to offer. Many locals took the opportunity to view the ship from the jetty or the public viewing area set up at the Ferry Terminal Carpark and join in with the activities on offer.

Not only were the visits a great boost for the local economy but also a chance to showcase the region. It is hoped that research trends from other ports will also happen in the Copper Coast with 33 per cent of visitors getting a taste of the region during their cruise ship call and revisiting within the next 2 years for an extended stay.

Congratulations

I would like to congratulate all of my team involved with the cruise ship visitations to Wallaroo. The coordination of volunteers, Rotary

Markets, various works undertaken prior to the arrival, promotion and entertainment was well done and appreciated. We are working with our partners to have further Cruises arrive at Wallaroo in 2020/2021.

Russell Peate, CEO

Copper Coast PUTT PUTT

The region's newest attraction opened in time for the October school holidays and has proved very popular. Co-located at 50 Mines Road, Kadina with the Copper Coast Visitor Information Centre, Indoor Play Centre, Farm Shed Museum and Miniature Railway the site now offers fun for everyone to enjoy along with an expansive lawn area ideal for a picnic. Over 2000 people enjoyed the challenging 18 hole course in the first 2 weeks and it has proven popular every day since then.

Constructed as part of a successful Fund My Neighbourhood Grant the course features many themed holes

Why STARCLUB?

We are going back to basics to let you know the STARCLUB, through the Office for Recreation, Sport and Racing, has a lot to offer the country club in particular. There are a host of templates available on line to help run your club, for example. No one is saying clubs haven't been organised professionally but there has been so many changes in the past decade clubs need to be aware of those changes and adapt accordingly. We can't stress it's all for the better. The Copper Coast Council oversees nearly 50 STARCLUB registered clubs with grants, advice and opportunities.

The STARCLUB is rolling along beautifully and we're trying to get out to as many clubs as possible. In a lot of ways, I'm starting from scratch despite all the information made available to me by my predecessor.

Working on quite a few projects and have been in contact with the clubs concerned and thank them for their cooperation. There's isn't a STARCLUB group I haven't contacted or tried to make contact with since arriving in October 2019 at the Copper Coast Council. If for some reason you don't believe I have got to you, please forward me all the club's details via email or on the mobile phone.

STARCLUB Updates:

We are moving away from monthly STARCLUB Newsletters via email and heading towards short video information stories. This type of coverage will also be introduced for events around the Copper Coast as well. Our best form of sending out information is via social media.

Training Courses:

The STARCLUB is about servicing its members and communicating with the Clubs. We often run courses from Child Safe Officer to Responsible Service of Alcohol.

Follow us on Facebook at facebook.com/starclub.officer for all upcoming grants, courses and all communication pertaining to the Starclub program.

Is your club registered as a Starclub? <https://www.starclub.sa.gov.au/>

Not sure if your club is registered? Check its status by performing a search <https://www.starclub.sa.gov.au/list-of-all-starclubs.php>

Sports Vouchers are a valuable asset for any youngster wanting to join a sport or dance club. The Sports Voucher program is a Government of South Australia incentive and managed by the Office for Recreation, Sport and Racing. \$100 off your membership/registration fees for all primary school children. In 2019 nearly 650 vouchers were claimed. That equals around \$60,000, and the good news is that the share between girls and boys is close to 50-50. The top 10 Sports include Aussie Rules, Netball, Basketball and Football (Soccer). Heading the list of top 10 Providers is the SANFL. Remember it's a \$100 discount on club membership.

Electronic lodgement of development applications

Council are now accepting the electronic lodgement of Development Applications. Council see this an opportunity to improve our efficiencies and services to you and ensure the future transition into the new Planning and Design Code is more streamlined.

Council still accepts hard copies of applications although encourage electronic

versions as this will speed up the process for you as the applicant. If you wish to submit applications electronically you can do so via Council's website <https://www.coppercoast.sa.gov.au/onlinedevelopmentapplication> or via email devadmin@coppercoast.sa.gov.au with the relevant plans and documentation as per usual.

As reported in October this year, the Moonta Masterplan Survey has been finalised. The results from the survey have been collated and WAX Design prepared a

draft Framework that was received by Council at the June Council meeting. The draft Framework was presented at a meeting to the Moonta Traders Group and again

made available for final public comment.

The period for commenting has closed and the draft Framework will be finalised and presented to Council early in 2020.

No one is safe from a bushfire. Make sure you are aware of where you can relocate should a bushfire ever threaten you. The CFS have identified places that can offer safety from a bushfire.

BUSHFIRE SAFER PLACES is generally metropolitan areas or rural settlement. They are suitable for use when relocating early, or when bad weather is forecasted or during a bushfire. These safer places may be subject to sparks, embers and smoke.

BUSHFIRE LAST RESORT REFUGE is typically ovals or buildings in rural areas. You use last resort refuges when your plan has failed. Last resort refuges are not suitable for extended use and provide limited protection during a bushfire.

To find out where the Copper Coast Council locations of Bushfire Safer Places and Bushfire Last Resort Refuges are, head to Councils website or the CFS website and follow the links below.

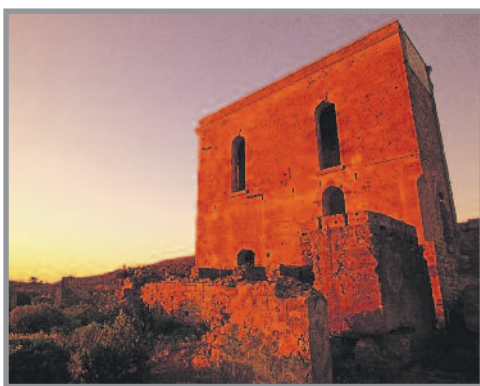

www.cfs.sa.gov.au or www.coppercoast.sa.gov.au

MOONTA MINES PRECINCT

The Moonta Mines Precinct was Nationally Heritage listed on 9th May 2017. In order to protect the Heritage status, but also ensure appropriate development within this area, Council applied and received funding of \$88,000 for the development of a Conservation Management Plan. Following a tender process, Swanbury Penglase, Heritage Architects were engaged to undertake this Plan.

Two public information sessions were held at Moonta on 12th and 13th November 2019. Both sessions were well attended and provided good feedback.

It is expected that a draft report will be available in late January or early February 2020. Once the Conservation Management Plan is completed and endorsed by the Federal Government Council and the Moonta National Trust could apply for funding for further development, in accordance with the Conservation Management Plan.

DROUGHT FUNDING

The Federal Government has allocated an additional one million dollars under the Drought Communities Programme - Extension. The Council does not determine the branding (drought funding) nor the criteria. This is determined by the Federal Government. The funding is primarily an economic stimulus package for local businesses and contractors.

At the Council meeting held on the 4th December 2019 Council considered projects for potential funding. The Council decided on the following projects:

- Moonta Town Hall - \$300,000
- Walleroo Town Hall - \$160,000
- Kadina Lagoons - \$150,000
- Kadina CBD/Smart Technology - \$153,000
- Cemetery Management - \$57,000
- Walleroo Illuminart - \$100,000
- Paskeville Storage Tank Enclosure - \$80,000

These projects will be submitted to the Federal Government for approval and all projects must be completed by the 31st December 2020.

2020 COPPER COAST VISITORS' GUIDE

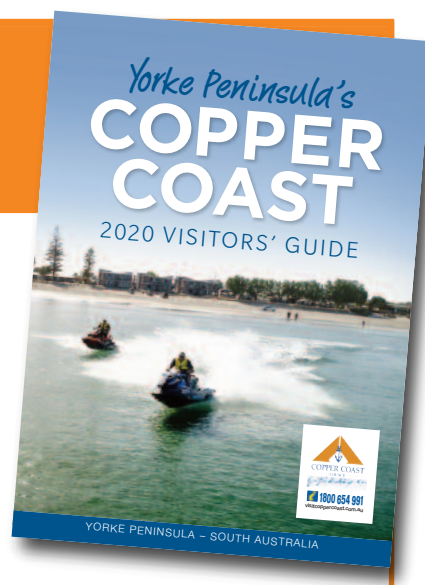

The new 2020 Copper Coast Visitors' Guide is available now and is full of information to help you discover all of what the region has to offer. The guide provides a comprehensive overview of everything you need to know about visiting the Copper Coast and information on the services both tourists and locals require.

Inside you will find new and up-to-date information on each town: Kadina, Moonta and Wallaroo as well as the surrounding townships: Bute, Port Broughton, and Fisherman Bay. Navigation around the region is made easy with

up-dated maps also incorporated.

The guide will encourage you to explore our regions rich agriculture, history and heritage, arts and culture, and family friendly activities. You can learn about the many treats in store in the Copper Coast region including great eateries, events, accommodation, must see attractions, local produce and much, much more.

Drop in to collect your free guide or even some further guidance from the welcoming staff at the Copper Coast Visitor Information Centre today. Go to: visitcoppercoast.com.au for more.

Financial Summary

The table to the right is a summary of the audited financial results of Council for the past two years and the adopted budget for 2019-20. The 2017-18 operating surplus was primarily due to a separate rate that was raised for the Wallaroo Shores Development raised against the developer's property. This separate rate was for \$7M and explains the large variance in the rate income during that year to the 2018-19 and 2019-20 years. The Council managed the contract for the construction of the road and the implementation of the Economic Development and Marketing Strategy for the Copper Coast, including the subject site. While the rate has been applied in a single year (2017-18), allowances have been made for it to be repaid at the time individual allotments created from the Land are sold for a period up to 6 years.

Work has been completed on both components of this separate rate however the expenditure to 30th June 2018 was only \$1.787M. The variance of \$5.213M is reflected in the operating surplus for the 2017-18 year and the result of this is that the remaining expenditure was spent in 2018-19 and is reflected in the materials, contracts & other expenses line for that year (see table).

Further to the above, the Commonwealth Government during June 2019 forwarded to Councils their funding under the Financial Assistance Grants Scheme 50% (\$1,398,863) of their 2019/20 allocation. This payment also included two payments of the supplementary road funding for 2019-20 and 2020-21 of \$162,884 each year. Under the Accounting Standards this income is to be reported in the year of receipt and therefore inflates the Grants, Subsidies, Contributions received for the 2018-19 financial year and also will impact on the 2019-20 and 2020-21 years.

A further adjustment for depreciation of \$269,000 was made in 2018-19 under AASB13 Fair Value Measurement for the residual values of the asset class of Buildings and Other Structures as the remaining values were not previously adjusted when the accounting standards came into effect.

Where do the funds come from?

Council receives some funding in grants from other Governments and raise some funds in user fees and charges, however approximately 73% of revenue came from the Council Rates in 2018-19.

The pie chart (below) outlines the areas in which Council receives funds in a typical year.

How is the money spent?

Council provides many services to the community, some of which are legislated and others which are provided by choice. Many of our services are largely invisible (ie storm water management, community wastewater management schemes, public lighting), but are definitely a necessary service provision.

Council's expenses represent the cost of providing these services to the community. Materials, contracts and other expenses made up 46% of the total operating expenditure of Council. Council Employees are its most valuable asset and provide the numerous services listed for the community at a consistent operating cost of 20% of expenditure. Depreciation makes up 29% of the total operating expenditure.

Whether a service is a legislative requirement of Councils, or is provided by local choice, the Local Government Act requires that a Council is "responsive to the needs, interests and aspirations of individuals and groups within its community..." and that it must "...seek to ensure that Council resources are used fairly..." (Section 8, (b) and (h)).

What assets does Council own?

When looking at the Council Balance Sheet the Council assets totalled \$308 million. This includes money that is owed to Council in the form of Rates and other services (Trade & other receivables), stock on hand (inventories) and for the large proportion Infrastructure, Property, Plant & Equipment. Council's non current assets (Roads & Footpaths, CWMS & Stormwater) were revalued by JLL Infrastructure Advisory Pty Ltd in 2017 at fair value. Infrastructure assets including Buildings will be again revalued during 2019/20. Additions to these assets from this date have been measured at cost. One of the challenges facing Local Government today is finding the revenue required to maintain the large amount of community infrastructure under its care and control.

Trade & Other Receivables is large as a result of the outstanding separate rate for the Wallaroo Shores Development which includes the outstanding interest applied.

	2017-18 Actual \$'000	2018-19 Actual \$'000	2019-20 Budget \$'000
Revenue			
Rates	28,462	22,775	23,462
Statutory Charges	558	587	561
User Charges	2,890	3,256	3,096
Grants, subsidies and contributions	3,460	3,167	1,812
Investment income	149	67	15
Reimbursements	748	794	315
Other Income	485	419	274
Total Income	36,752	31,065	29,535
Expense			
Employee Costs	7,005	6,888	7,487
Materials, contracts & other expenses	13,788	15,901	11,645
Depreciation, amortisation & impairment	9,482	9,816	9,565
Finance costs	1,573	1,627	1,731
Total Expenses	31,848	34,232	30,428
Net Operating Surplus/(Deficit)	4,904	-3,167	-893
Asset Disposal & Fair Value Adjustments	146	324	584
Amounts received specifically for new or upgraded assets	5,069	354	226
Physical resources received free of charge	648	0	0
Total Comprehensive Income	10,767	-2,489	-83

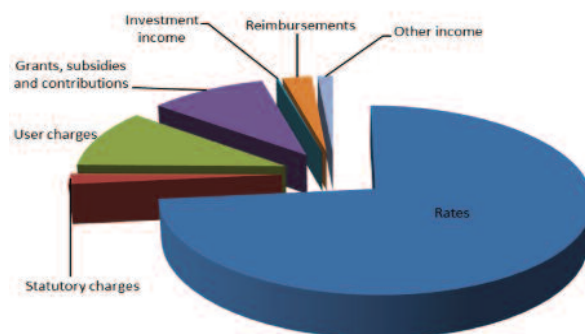

What liabilities does Council owe?

Council's liabilities include loans, amounts owing to suppliers, amounts owing to employees for leave entitlements and amounts owing to residents of our retirement villages should they no longer occupy one of our units in Moonta or Wallaroo.

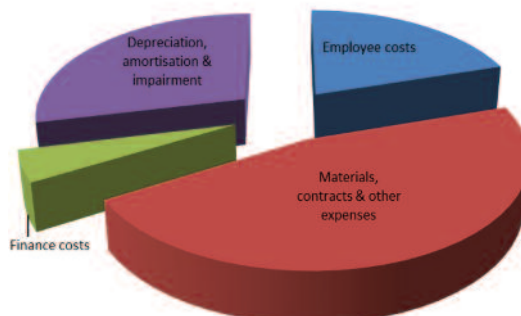

Council's borrowings are reported in the Annual Report and also in the Annual Financial Statements.

The balance is currently \$36.5 million as at 30th June 2019 however it is important to note that this also includes \$4.0 million for the retirement villages licences in Moonta and Wallaroo.

Operating Revenue 2018/19 \$31,064,774

Operating Expenditure 2018/19 \$34,231,345
